**Global Dictionary of Theology** William A.

Dyrness,Veli-Matti Kärkkäinen,2009-10-25 Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti K rkk inen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective and inquiry Here is a new launching point for doing theology in today s global context

**Transformation Through the Different Other** Faustin Ntamushobora,2013-03-05

Transformation Through the Different Other is the story of Faustin Ntamushobora s transformation through encounters with people of different races tribes worldviews and experiences and how God has used these experiences to transform his life into the image of Christ The root cause of racial and tribal problems is not really the difference in color but the human heart However differences in race tribe and worldview could widen the gap in people s hearts and cause more separation and strife

But the same heart if transformed by the Great Other can shape and sharpen the heart of one's fellow human being Ntamushobora acknowledges that community is very important for our transformation Diversity in community when developed with a sense of unity can shape us into vessels that glorify the Lord by pouring into and receiving from those who are different from us The book ends with practical ways transformation through the other can become a reality and an invitation to believers to prepare themselves for the time when every tongue every tribe and every race will stand together singing praises to the Lamb of God who was slain for the redemption of every person from every nation
