New Italian Design Nally Bellati, 1993-08-01 **Italian Design** Giampiero Bosoni, Museum of Modern Art (New York, N.Y.), 2008 The story of Italian design told through works selected from the collection of the museum of modern art New York

BOOK JACKET **The New Italian Design 2.0** Andrea Branzi, Silvana Annicchiarico, 2010 *Italy: the New Domestic Landscape* Museum of Modern Art (New York, N.Y.), 1972 During the last decade the emergence of Italy as the dominant force in design has had a profound influence in Europe and the Americas The phenomenon is important not only because of the high quality and diversity of the forms produced but also because it has generated a lively debate on the sociocultural implications of product design raising questions of vital concern to designers throughout the world For many designers the aesthetic quality of individual objects intended for private consumption have become irrelevant in the face of such pressing problems as poverty urban decay and the pollution of the environment now encountered in all industrialized countries

Consequently they are increasingly shifting the focus of their attention from the well designed object to man's total environment seeing the designer's function as one that can mold patterns of behavior by creating new settings for freer more adaptable lifestyles Some however despairing of effecting social change through design regard their task as essentially a political one They therefore abstain from the physical designing of either objects or environments and channel their energies into the staging of events and the issuing of polemical statements Their approach thus parallels that of many artists in other mediums who view their art in primarily conceptual terms This publication issued in conjunction with a major exhibition at The Museum of Modern Art is the first to deal comprehensively with these challenging developments Over 150 objects of Italian design of the past ten years have been selected for the show and are all reproduced in color and black and white as are the dozen environments by well known Italian designers specially commissioned for the occasion and the two awarded prizes in a concurrent competition for young designers under thirty five sponsored by the Museum Each environment is accompanied by a statement in which the individual or group responsible for the project clarifies his position regarding the present and future role of design In addition to essays by Emilio Ambasz Curator of Design at the Museum of Modern Art and director of the exhibition the book contains contributions by a number of outstanding Italian critics and art historians Together these comprise the first historical survey of contemporary Italian design and a critical analysis of its intellectual and formal positions within the context of international design today Publisher's description
