**Kenneth Rexroth and James Laughlin** Kenneth Rexroth,1991 Frankly H Miller was defended by me only because he spoke against the War and I think that was the main reason for his fame Now I do not believe what with Palmistry Chirography Phrenology and the Great Cryptogram he will survive the retooling period I honestly think he is the most insufferable snob I have ever met but all reformed pandhandlers are like that in a letter from Kenneth Rexroth to James Laughlin *Publishing Modernist Fiction and Poetry* Lise Jaillant,2019-02-06 Publishing houses are nearly invisible in modernist studies Looking beyond little magazines and other periodicals this collection highlights the importance of book publishers in the diffusion of modernism It also participates in the transnational turn in modernist studies demonstrating that book publishers created new markets for modernist texts in the United States Europe and the rest of the world [Current Catalog](#) National Library of Medicine (U.S.),1982 First multi year cumulation covers six years 1965-70 *Putting Modernism Together* Daniel Albright,2015-06-10 A powerful introduction to modernism and the creative arts it inspired How do you rationally connect the diverse literature music and painting of an age Throughout the modernist era which began roughly in 1872 with the Franco Prussian War climaxed with the Great War and ended with a third catastrophe the Great Depression there was a special belligerence to this question It was a cultural period that envisioned many different models of itself to the Cubists it looked like a vast jigsaw puzzle to the Expressionists it resembled a convulsive body to the Dadaists it brought to mind a heap of junk following an explosion In *Putting Modernism Together* Daniel Albright searches for the center of the modernist movement by assessing these various artistic models exploring how they generated a stunning range of creative work that was nonetheless wound together aesthetically and sorting out the cultural assumptions that made each philosophical system attractive Emerging from Albright's lectures for a popular Harvard University course of the same name the book investigates different methodologies for comparing the evolution and congruence of artistic movements by studying simultaneous developments that occurred during particularly key modernist years What does it mean Albright asks that Joseph Conrad's *Heart of Darkness* published in 1899 appeared at the same time as Claude Debussy's *Nocturnes* beyond the fact that the word Impressionist has been used to describe each work Why in 1912 did the composer Arnold Schoenberg and the painter Vassily Kandinsky feel such striking artistic kinship And how can we make sense of a movement fragmented by isms that looked for value in all sorts of under or ill valued places including evil Baudelaire dung heaps Chekhov noise Russolo obscenity Lawrence and triviality Satie Throughout *Putting Modernism Together* Albright argues that human culture can best be understood as a growth pattern or ramifying of artistic intellectual and political action Going beyond merely explaining how the artists in these genres achieved their peculiar effects he presents challenging new analyses of telling craft details which help students and scholars come to know more fully this bold age of aesthetic extremism [Resources in Education](#) ,1975 **Guide to Microforms in Print** ,1995 **Monographic Series** Library of Congress, [National](#)

**Library of Medicine Current Catalog** National Library of Medicine (U.S.),1982      **Henry Miller and Narrative Form**  
James Decker,2006-06-01 In this bold study James M Decker argues against the commonly held opinion that Henry Miller's narratives suffer from formlessness He instead positions Miller as a stylistic pioneer whose place must be assured in the American literary canon From Moloch to Nexus through such widely read texts as Tropic of Cancer and Tropic of Capricorn Decker examines what Miller calls his spiral form a radically digressive style that shifts wildly between realism and the fantastic Drawing on a variety of narratological and critical sources as well as Miller's own aesthetic theories he highlights that this fragmented narrative style formed part of a sustained critique of modern spiritual decay A deliberate move rather than a compositional weakness then Miller's style finds a wide variety of antecedents in the work of such figures as Nietzsche Rabelais Joyce Bergson and Whitman and is viewed by Decker as an attempt to chart the journey of the self through the modern city Henry Miller and Narrative Form affords readers new insights into some of the most challenging writings of the twentieth century and provides a template for understanding the significance of an extraordinary and inventive narrative form      [The Booklist Books](#) ,1930 Contains general literature fiction children's books technical books      **Catalogue of Printed Books** British Museum,1886      **Chemist and Druggist** ,1909      [Techniques in Clinical Endodontics](#) Harold Gerstein,1983      [Beyond the Difference](#) Alyce von Rothkirch,Daniel Williams,2004 Beyond the Difference is a celebration of the work of Wales's leading literary critic M Wynn Thomas with contributions from internationally acclaimed writers and poets as well as significant critics working in the field Looking initially at the relationships between the English and Welsh language literatures of Wales the volume proceeds to explore the interactions of nationhood and gender from the late nineteenth century to the present day the politics of translation in Wales as compared to Ireland and America and the intriguing connections between Welsh literature and American African American Irish and Jewish literary traditions
