New Ears:

Listening Closely Arlene Romoff, 2019-05-28 Imagine what it would be like not to hear a sound no music no friendly voices no children's laughter Arlene Romoff doesn't have to imagine how it would feel she lived it Although she was born with normal hearing in her late teens it began to slip away as if someone were lowering the volume of the world around her Over the next twenty five years Arlene began a long slow descent into deafness so profound that no hearing aid or assistive device could help The experience was devastating But then Arlene opted for what she considers a miracle She got a cochlear implant Using electrodes threaded into the cochlea an internal computer chip and an external computer processor cochlear implants bypass the damaged portion of the cochlea and stimulate the auditory nerve directly allowing sound to reach the brain Amazingly she could hear again Arlene's journey however isn't just about the magic of technology What she endured reveals as much about the strength of the human spirit about the wonders of chance and fate and about making the most of what life dishes out For Arlene events seemed to unfold almost as if they were a part of some elaborate plan just when she went deaf her insurance company began paying for the implants And ten years later when her old cochlear implant finally failed she received new state of the art technology and underwent yet another metamorphosis one that helped her continue to counsel others in a similar situation *LISTENING CLOSELY* will give you a chance to walk in Arlene Romoff's shoes to understand the pain of her loss and the joy of once again being able to hear the music of the world Those suffering from hearing loss or who have loved one who is will find Arlene's very special journey both inspirational and informative

Poetic Meditations on Selected Scripture John P. Davis, 2021-05-07 This devotional of poetic meditations grew out of forty five years of expository preaching and self reflection The author's intermittent attempts at poetry reveal both his best and worst parts These poems reflect experience as a follower of Jesus an inward battle with sin shame sadness defeats yet always the word of God leads to the gospel of Jesus Christ and his victory his forgiveness his power his love and his hope Never without the realization of sinfulness and the sufficiency of the work of Jesus Christ many live daily on a continuum between these two poles of striving by faith to rest in Christ and agonizing over the heart's inclination to wander By God's grace and through his Spirit that movement may be more toward victory than defeat *Volume of Proceedings* Music Teachers National Association, 1922 *Dissonant Waves* Sam Dolbear, Esther Leslie, 2023-09-19 An investigation of the cultures and technologies of early radio and how a generation of cultural operators with Schoen at the center addressed crisis and adversity Dials knobs microphones clocks heads hands breath voices Ernst Schoen joined Frankfurt Radio in the 1920s as programmer and accelerated the potentials of this collision of bodies and technologies As with others of his generation Schoen experienced crisis after crisis from the violence of war the suicide of friends economic collapse and a brief episode of permitted experimentalism under the Weimar Republic for those who would foster aesthetic technical and political revolution The counterreaction was Nazism and Schoen and his milieu fell victim to it found ways out of it or hit against it

with all their might Dissonant Waves tracks the life of Ernst Schoen poet composer radio programmer theorist and best friend of Walter Benjamin from childhood as he moves between Frankfurt Berlin Paris and London It casts radio history and practice into concrete spaces into networks of friends and institutions into political exigencies and domestic plights and into broader aesthetic discussions of the politicization of art and the aestheticization of politics Through friendship and comradeship a position in state backed radio imprisonment exile networking in a new country re emigration ill treatment neglect Schoen suffers the century and articulates its broken promises An exploration of the ripples of radio waves the circuits of experimentation and friendship and the proposals that half found a route into the world and might yet spark political technical experimentation
