Federal Trade Commission, 1974 **An Introduction to the Law on Financial Investment** Iain G MacNeil, 2012-01-20 Since the publication of the first edition of this book in 2005 the world of financial investment has experienced an unprecedented boom followed by a spectacular bust Significant changes have been proposed and in some cases implemented in areas such as the structure of regulation the organisation of markets supervision of market participants and the protection of consumers The second edition takes account of these developments integrating them into an analytical framework that enables the reader to develop a critical overview of the role of general legal rules and specialised systems of regulation in financial investment The framework focuses on the role of contract trusts and regulation as the primary legal influences for financial investment The first part explores the relationship between investment law and regulation The second part examines the nature of investments and investors both professional and private The third part discusses the central role of corporate finance and corporate governance in linking investors with enterprises that require external capital The fourth part examines the nature operation and regulation of markets and the participants that support the functioning of the markets The objective remains to provide a broadly based and critical account of the role of law in

The Hardship of Nations Benjamin Coriat, Pascal Petit, Geneviève Schméder, 2006-01-01 After more than two decades of widespread hardship for most nations what are the different paths available for them to resume steady growth and welfare Will they actually succeed in building new growth models that meet the challenges of the present phase of internationalisation This book attempts to answer these questions by analysing different perspectives and discussing the conditions for new national growth trajectories to emerge *Insider Trading in Developing Jurisdictions* Wunmi Bewaji, 2012 The book examines the regulation of insider dealing in the developed jurisdictions using three of the G7 countries as guides with the aim of knowing how they have regulated insider trading and what lessons can be learnt from their failures and achievements It looks at regulatory regimes in the US the UK and Japan in order to consider whether these regimes can be successfully transplanted to developing countries In order to explore insider dealing in the developing world the book focuses on Nigeria Africa's most populous nation and second largest economy This book examines in theoretical and empirical terms the law on insider trading away from the dogmatic approach of Western literature by presenting the subject from the prism of a developing jurisdiction in post colonial Africa with a divergent

cultural historical social political and economic background The author analyses what shape insider dealing takes in Nigeria a predominantly illiterate society and considers the groups involved The books also explores how the concept of insider dealing regulation is understood amongst parties integral to its administration and enforcement such as lawyers judges stockbrokers and ordinary investors The legislation governing insider dealing regulation in Nigeria is critically examined to expose its strengths and weaknesses and to see how foreign provisions and legislation have been incorporated The book uses Nigerian experiences to consider its implications for other developing nations arguing that regulatory regimes need to take into account the specific social political historical and economic factors of a particular locale rather than importing regulations wholesale from developed jurisdictions Works John Ruskin,1907 Who's who in Finance, Banking, and Insurance ,1922 **Resource Management Journal** ,1985 *Music Trade Indicator* ,1921 **Chemical & Metallurgical Engineering** Eugene Franz Roeber,Howard Coon Parmelee,1928 **The Aeroplane** ,1917 **The Executive in Action** Peter F.
