**New Germans, New Dutch** Liesbeth Minnaard, 2008 In today's globalized world traditions of a national Self and a national Other no longer hold. This timely volume considers the stakes in our changing definitions of national boundaries in light of the unmistakable transformation of German and Dutch societies. Examining how the literature of migration intervenes in public discourses on multiculturalism and including detailed analysis of works by the Turkish German writers Emine Sevgi zdamer and Feridun Zaimoglu and the Moroccan Dutch writers Abdelkader Benali and Hafid Bouazza. *New Germans, New Dutch* offers crucial insights into the ways in which literature negotiates both difference and the national context of its writing.

**New Germans, New Dutch** Liesbeth Minnaard, 2025-10-01 In the globalised world of today traditional definitions of national Self and national Other no longer hold. The unmistakable transformation of German and Dutch societies demands a thorough rethinking of national boundaries on several levels. This book examines how literature of migration intervenes in public discourses on multiculturalism in Germany and the Netherlands epitomised in the strikingly parallel debates on the German *Leitkultur* and the Dutch multicultural drama in the year 2000. By juxtaposing detailed analyses of literary work by the Turkish German writers Emine Sevgi zdamer and Feridun Zaimoglu and the Moroccan Dutch writers Abdelkader Benali and Hafid Bouazza. *New Germans, New Dutch* offers crucial insights into the specific ways in which this literature negotiates its national context of writing. This book demonstrates how German literature of migration seeks alternative forms of community outside the national parameters whereas the Dutch literature negotiates difference and re imagines Dutchness within the national framework.

**The New Germans** John Dornberg, 1976      **Germany and the United States, a "special Relationship?"** Hans Wilhelm Gatzke, 1980 A discerning statement about Germany and other nations this book reevaluates for the general reader and the historian the impact of rapid industrialization the origins of the world wars the question of war guilt the decade of Weimar democracy and the rise and fall of Hitler. Gatzke looks anew at the economic miracle in West Germany and the consequences of making prosperity the cornerstone of a new republic.

**The German Element in the United States with Special Reference to Its Political, Moral, Social, and Educational Influence** Albert Bernhardt Faust, 1909

**The Nazi Impact on a German Village** Walter J. Rinderle, Bernard Norling, 2004-05-01 Many scholars have tried to assess Adolf Hitler's influence on the German people usually focusing on university towns and industrial communities most of them predominately Protestant or religiously mixed. This work by Walter Rinderle and Bernard Norling however deals with the impact of the Nazis on Oberschopfheim a small rural overwhelmingly Catholic village in Baden Wuerttemberg in southwestern Germany. This incisively written book raises fundamental questions about the nature of the Third Reich. The authors portray the Nazi regime as considerably less totalitarian than is commonly assumed hardly an exemplar of the efficiency for which Germany is known and neither revered nor condemned by most of its inhabitants. The authors suggest that Oberschopfheim merely accepted Nazi rule with the same resignation with which so many ordinary people have

regarded their governments throughout history Based on village and county records and on the direct testimony of Oberschopfheimers this book will interest anyone concerned with contemporary Germany as a growing economic power and will appeal to the descendants of German immigrants to the United States because of its depiction of several generations of life in a German village

**European National Identities** Roland Vogt,2017-09-08 Making sense of the perplexing diversity of Europe is a challenging task How compatible are national identities in Europe What makes Europe European What do Europeans have in common European National Identities explores the diversity of European states nations and peoples In doing so the editors focus on the origins and elements of different national identities in Europe and different themes of national self understanding Each chapter contributes a unique view of national identities gravitating around myth historical experiences and traumas values ethnic and linguistic differences and religious fault lines This work grounds European national identities within cultural historical and political dynamics which makes the work approachable for many readers including historians sociologists and political scientists In addition the editors illustrate that national identities continue to be a source of contention and a challenge to political developments the demands of immigrants and minorities and the dynamics of European integration This book draws particular attention to identity shifts and conflicts within individual European countries

**Germans in the New World** Frederick C. Luebke,1999 Provides history of German immigrants in the United States and Brazil that ranges from institutional and state history to comparative studies on an intercontinental scale This book offers both a record of an individual odyssey within immigration history and a statement about the need for thoughtful reflections on the field

*The Story of the Greatest Nations* Edward Sylvester Ellis,Charles Francis Horne,1914

**Forging Diasporic Citizenship** Gül Çalışkan,2022-12-01 Around the world a new kind of diasporic citizenship is appearing especially among diasporic people such as German born Berliners of Turkish origin Drawing on interviews conducted over a fifteen year period Forging Diasporic Citizenship explores the dynamics of everyday life for these Ausländer or outsiders These people are obliged to define themselves by their Otherness but it is their relatedness to German society that transgresses traditional concepts of both German and Turkish identity In this work of narrative research Gürkan explores the tensions between the experience of displacement and the politics of accommodation as the Ausländer make claims to citizenship articulate the ways they are rooted and seek to achieve recognition Through examining the social encounters life events and everyday practices of these German born Ausländer Forging Diasporic Citizenship constructs a theoretically sophisticated transnationally applicable hypothesis regarding the nature of modern citizenship and multiculturalism
