New Intimacy:

The New Intimacy Ronald M. Mazur,2000-04 The close of the 20th century has witnessed the minority status of the traditional family in America On the threshold of a new millennium now is an opportune and urgent time to give voice to the intimacies of alternative lifestyles including open marriage Traditional monogamy is still the prize for countless adults searching for meaning and love in their lives That search is honored by myriad religious and societal supports It is to non traditionalists to those ready for new life and love affirmations that this book is offered with joy The evolution of human consciousness prepares the way for the unfolding of our universal polyamorous potential Let the pioneers be unafraid to move beyond the ancient limits of relationships to the new intimacy of responsible erotic freedom May the new millennium be the end of pleasure phobia

The Other Special Relationship Jeffrey D. McCausland,2007 This volume summarizes the major findings of the conference participants over the last year Beyond the thematic resemblance between this volume and the previous study of U S UK relations another similarity is the importance of two events in determining London and Canberra's relations with Washington The terrorist attacks of September 11 2001 9 11 represent the first turning point The British and Australian governments reacted similarly to these attacks immediately identifying 9 11 as a transformative moment in international relations But the Australian Prime Minister's presence in Washington DC during the 9 11 terrorist attacks intensified the personal impact of the events and within a few days his government had invoked the ANZUS Treaty to offer its full support to the United States The second big event dominating both U S UK relations and U S Australia relations has been America's management of the Global War on Terror and in particular its leadership of the ongoing operations in Afghanistan and Iraq

Current Literature ,1918 **Refocusing School Leadership** Robert J. Starratt,2010-09-13 Refocusing School Leadership departs from the more traditional conceptualization of leadership looking behind the daily routines of human resource leaders to highlight the assumptions and values and beliefs they bring to their work as well as the values and meanings embedded in the various contexts of school life Starratt explores how educational leadership is grounded in one's own humanity as well as in a deep appreciation of the richness complexity and enormous potential of people and he attempts to restore the centrality of human development in the work of educating the young education is not simply about educating minds but about developing whole persons Starratt argues for a refocusing of educational leadership on affirming and enabling those talents dispositions interests life experiences and cultural proficiencies that comprise their humanity to enrich the work of learning The vision of the school should speak of the extraordinary possibilities for human achievement in our young people as well as the talents of their teachers to nurture those possibilities Starratt's focus on leadership as human resource development will energize the efforts of faculty staff and students to improve the quality of learning the primary work of schools This book is a valuable resource to prepare aspiring leaders whether administrators or teachers to deal with the way schools are currently run and to imagine and create better ways to promote quality learning for
