**A History of the Middle East** Saul S. Friedman,2014-01-10 As the birthplace of three principal religions the Middle East is holy to 15 million Jews 2 billion Christians and 1 billion Muslims As the cradle of western civilization it is fundamental to world history the place where humans transformed themselves from nomadic hunters to settled farmers capable of building great cities and societies This detailed history covers the Middle East from its ancient beginnings to the present The confluence of events that produced civilized society is fully discussed along with the establishment of Judaism Christianity and Islam The emergence and decline of the Byzantine and Ottoman empires which laid much of the framework for the region to move into the modern era is covered in depth Analysis of the area in recent decades focuses on World War I and II and the regional conflicts that inflame the Middle East of the 21st century Instructors considering this book for use in a course may request an examination copy here      The Road to New Islam: Mahfouz, Arkoun, Abu Zaid, Kassim, & Other Muslim & Non-Muslim Thinkers Akef R. Abadir PHD.,2021-08-10 The author Akef R Abadir born in Tanta Egypt was living in Alexandria as the colonial period was drawing to an end in the 1950s and early 1960s At the time Alexandria Egypt was a multiethnic and cosmopolitan city The social fabric was composed of an aggregate of Egyptians Europeans and other minorities These different communities and denominations coexisted in relative peace and respect of one another However despite what was shared in common Europeans in general whether at home or abroad seemed to be more progressive than most Egyptians This discrepancy became even more dramatic as one left the urban centers such as Cairo and Alexandria and ventured into rural areas where poverty and illiteracy prevailed Looking back at life in this Mediterranean city nothing seemed to point to an answer where religion would be a major factor In fact in reaction to a prolonged foreign presence Egyptian society had been undergoing a gradual cultural change characterized by a return to a more restrictive interpretation and practice of Islam This observation launched the author Akef Abadir on a long period of exploration and research that led to the writing of this book Currently East West relationship is experiencing a period of great instability It has been suggested that the resolution of this conflict requires reaching a political compromise based on mutual acceptance and understanding To achieve this goal it is imperative to address the problem of Islamic modernism and examine the context in which it is taking shape From the authors viewpoint what has been written regarding Islamic modernity has not provided a comprehensive overview of the subject This book intends to address this gap and examine the core issues that have confronted Islam starting from the seventh century to the present The objective of this book is not to predict when Islam

will modernize but rather to explore the current process of change taking place and the obstacles it is facing The aim is to ultimately promote a constructive dialogue between the Muslim community and the outside world particularly the West 1 fouz in1 his Trilllogy **Who's who in the Arab World** ,1966 **Who Writes Arab History?** Joseph A.
