## **Making Ethnic Choices:**

**Making Ethnic Choices** Karen Leonard,2010-08-17 Defining and changing perceptions of ethnic identity

**Immigrant Punjabi Men and Their Spouses** Karen Isaksen Leonard,1992 Religions in Asian America Pyong Gap

Min,Jung Ha Kim,2001-12-18 The flux of Asian immigration over the last 35 years has deeply altered the United States religious landscape But neither social scientists nor religious scholars have fully appreciated the impact of these growing communities And Asian immigrant religious communities are significant to the study of American religion not only because there are more than ten million Asian Americans Asian American religions differ substantially from models drawn from European religions pushing for new wider understandings Religions in Asian America provides a comprehensive overview of the religious practices of Chinese Filipino Indian Korean Japanese Vietnamese Cambodian and Laotian Americans How these new communities work through issues of gender race transnationalism income disparities and social service and the passing along an ethnic identity to the next generation make up the common themes that reach across essays about the varying communities The first sociological overview of Asian American religions Religions in Asian America is necessary reading for those interested in Asians ethnicity immigration or religion in the United States Asian American Histories of the United States Catherine Ceniza Choy,2022-08-02 An inclusive and landmark history emphasizing how essential Asian American experiences are to any understanding of US history Original and expansive Asian American Histories of the United States is a nearly 200 year history of Asian migration labor and community formation in the US Reckoning with the onset of the COVID 19 pandemic and the surge in anti Asian hate and violence award winning historian Catherine Ceniza Choy presents an urgent social history of the fastest growing group of Americans The book features the lived experiences and diverse voices of immigrants refugees US born Asian Americans multiracial Americans and workers from industries spanning agriculture to healthcare Despite significant Asian American breakthroughs in American politics arts and popular culture in the twenty first century a profound lack of understanding of Asian American history permeates American culture Choy traces how anti Asian violence and its intersection with misogyny and other forms of hatred the erasure of Asian American experiences and contributions and Asian American resistance to what has been omitted are prominent themes in Asian American history This ambitious book is fundamental to understanding the American experience and its existential crises of the early twenty first century A New History of Asian America Shelley Sang-Hee Lee,2026-01-22 The second edition of A New History of Asian America offers an expansive updated synthesis of the Asian American experience making it essential reading for those seeking a nuanced understanding of Asian America s role in shaping contemporary society Covering Asian American history from early Orientalist conceptions preceding the United States founding to the racial reckonings of the 2020s this work integrates cutting edge research with enduring historical narratives Groundbreaking in its approach the book addresses urgent contemporary issues such as neoliberal multiculturalism intensified immigration enforcement and anti Asian violence

alongside deepened analysis of class gender and transnational dynamics Prominent case studies include post 9 11 racial profiling of Arabs and South Asians activism during the George Floyd protests and anti Asian violence linked to COVID 19 rhetoric This edition has been thoroughly revised incorporating significant developments and scholarly innovations of the last decade while reframing familiar histories to yield fresh insights into structural violence and diasporic agency The book remains committed to a central claim that Asian American history is fundamental to understanding broader American histories of race power and resistance Accessible yet rigorous this book is a vital resource for students scholars librarians booksellers and general readers alike

**Ethnic Options** Mary C. Waters, 1990-08-09 Mary Waters admirable study of Americans ethnic choices produces a rich social scientific yield Its theoretical interest derives from the American irony that while ethnicity is supposed to be ascribed many Americans are active in choosing and making their ethnic memberships and identities The monograph is simultaneously objective and attentive to subjective meaning simultaneously quantitative and qualitative and simultaneously sociological and psychological Her research problems are well conceived and her findings important and well documented As ethnicity and race continue in their high salience in American society and politics sound social scientific studies like this one are all the more valuable Neil Smelser co editor of The Social Importance of Self Esteem One of the most sensible and elegant books about ethnicity in the United States that has ever been my great pleasure to read Andrew M Greeley University of Chicago Skilled in both demographic and interviewing methods Mary Waters makes ethnicity in contemporary America come alive We learn how people construct their identities and why This is sociological research at its very best and will be of interest to policy makers and educated Americans as well as to students and scholars in several disciplines Theda Skocpol Harvard University Perhaps the most intriguing question in the study of the old European immigration is how the 4th 5th and later generations who are the offspring of several intermarriages are choosing their ethnic identities from the several available to them Professor Waters clever mix of quantitative and qualitative research has produced some thoughtful and eminently sensible answers to that question making her book required reading for students of ethnicity Her work should also interest general readers concerned with their or their children's ethnic identity or just curious about this yet little known variety of American pluralism Herbert J Gans Columbia University Waters has produced a work with broad theoretical implications The title may be regarded as one of the first serious attempts to understand the dynamics of postmodern societies Waters shows that ethnicity becomes transformed from an ascriptive into an achieved status a voluntary construction of individual identity and group solidarity Waters also shows that in America at least this increased flexibility is unavailable to racial minorities Jeffrey C Alexander University of California Los Angeles A theoretically informed and theoretically driven fine grained analysis pooling ideas and issues in both ethnography and demography Stanley Lieberson Harvard University Thanks to Ethnic Options we have a much better understanding of the social and cultural significance of responses to the ancestry question on the 1980 census By combining in depth interviews

with analysis of census data Mary Waters puts flesh on the demographic bare bones Her findings suggest that ethnicity is becoming less an ascribed trait fixed at birth than an option that depends on circumstance whim and increasingly the ethnicity of one s spouse Stephen Steinberg author of *The Ethnic Myth* Choice ,1993 **Moral Issues in Military Decision Making** Anthony E. Hartle,2004 Much has changed in warfare in recent years with America now dominant on the international scene and terrorism the new enemy In light of these changes the need for moral grounding in military actions is a more pressing concern than ever When it was originally published Moral Issues in Military Decision Making reflected the concerns posed by nuclear stalemate and the lessons of Vietnam In that highly praised work Anthony Hartle outlined the essential elements of the Professional Military Ethic created for American military forces In this new edition he reexamines the moral foundations for America s military leadership in the post 9 11 era Considering world affairs since the first edition the Gulf War Bosnia Afghanistan Iraq 9 11 and the emergence of the United States as an unrivaled military power Hartle explains how these events have raised ethical issues that differ dramatically from those of the Cold War by the war on terrorism homeland defense asymmetric warfare the proliferation of American military interventions and the UN s role in peacekeeping operations Using meticulously analyzed case studies twice as many as in the first edition he considers such moral dilemmas as torture challenging superior officers use of overwhelming force and responding to fire in the presence of civilian shields In this revision Hartle examines further the status of professional military ethics in light of current affairs changes in the articulation of military values and recent research In a new chapter on human rights he relates moral principles directly to values embedded in the Constitution and argues that overwhelming American military power cannot succeed unless it is accompanied by the moral force of the values it seeks to protect difficulties of applying conventional laws of war and human rights doctrine in military operations Hartle convincingly shows that national security is as much about the preservation of moral principles as it is about the protection of America s citizens and borders His book demonstrates that the American military must continue to observe those principles in order to be effective in its primary mission

**Explorations in Ethnic Studies** ,1991 **Language and Minority Rights** Stephen May,2008 In this provocative and ground breaking book Stephen May argues for a non essentialist understanding of language rights while at the same time outlining why language rights particularly for minority groups are defensible and important both academically and politically May argues that the causes of many of the language based conflicts in the world today lie with the nation state and its preoccupation with establishing a common language and culture via mass education The solution he suggests is to rethink nation states in more culturally and linguistically plural ways while avoiding at the same time essentialising the language identity link Language and Minority Rights a benchmark volume in the field of language rights and language policy is an outstanding interdisciplinary analysis which draws together debates on language from widely different academic fields including the sociology of language ethnicity and nationalism sociolinguistics social and political theory education history and

law illustrating these debates via a wealth of different national contexts and examples It is essential reading for students teachers and researchers in the sociology of language sociolinguistics applied linguistics language policy and planning sociology politics and education *International Current Awareness Services*, 1993 Indexes current publications in anthropology including material too ephemeral for its parent annual the International bibliography of social and cultural anthropology and has only limited coverage of monographs *Diaspora*, 2000 **Child-rearing in Ethnic Minorities** Jagjit Singh Dosanjh, Paul Avtar Singh Ghuman, 1996 The book explores the child rearing practices of an ethnic minority group Punjabis living in Britain and North America Containing interviews with two generations of mothers those of the 1990s and 1970s this book reveals insights and attitudes that are also relevant for understanding other ethnic minority groups

Guru Nanak Journal of Sociology, 2007 **Gujarati Transnationals** Surekha Acharya, 2001 **Asian Indian Immigrants** Brij B. Khare, 1997 **From Generation to Generation** Wendy Leeds-Hurwitz, 2006 This book applies various social approaches investigations of real people as they function in specific context the family Of all our identities cultural identity is one of the most central to who we think we are We learn our cultural identities first within families and the authors all examine the families they know best their own Four critical issues are examined how family members work to construct identity how parents convey that identity the conflict between mainstream expectations and the traditions of cultural groups and the range of possible ways to display identity within and across groups **Rooted Homelands, Routed Hostlands** Jigna Desai, 1999 *Rethinking the Color Line* Charles Andrew Gallagher, 1999 A collection for an undergraduate course providing a theoretical framework and analytical tools and discussing the meaning of race and ethnicity as a social construction The readings are designed to require students to negotiate between individual agency and the constraints of social structure an The Imagination of South Asian America Bakirathi Mani, 2002
