Making Of Black America:

How Trump is Making Black America Great Again Horace Cooper, 2020-07-07 The election of President Donald Trump has been portrayed in the mainstream media as a doomsday event especially for America's racial minorities. And yet reality has proven quite the contrary. Not only are African Americans employed at a greater rate than any other time since the late 1950s, black business formation is at an all-time high. In this groundbreaking book, longtime academic and political commentator Horace Cooper explains how Trump's economic policies, including lowering taxes, eliminating stifling regulation, and renegotiating trade agreements, are producing an unforeseen boon to Black America. This book provides a philosophical framework through which Trump's presidency can be viewed as a benefit to Black America rather than a stumbling block.

The Making of Black America, 1969 *How to Make Black America Better*, 2009-04-02 Issuing a powerful call for constructive social action, the popular radio and television commentator Tavis Smiley has assembled the voices of leading African American artists, intellectuals, and politicians from Chuck D to Cornel West to Maxine Waters. *How to Make Black America Better* takes a pragmatic, solutions-oriented approach that includes Smiley's own ten challenges to the African American community. Smiley and his contributors stress the family, tie the power of community networks, the promise of education, and the leverage of black economic and political strength in shaping a new vision of America. Encouraging African Americans to realize the potential of their own leadership and to work collectively from the bottom up, the selections offer new ideas for addressing vital issues facing black communities. Featuring original essays by some of our most important thinkers, *How to Make Black America Better* is an essential book for anyone concerned with the status of African Americans today.

Bamboozling Black America E. Malcolm Wise, 2013-12-03 BAMBOOZLING BLACK AMERICA is a fictional account of a plot to destroy Black America. Secret agencies with devious minds have hatched a plot to bring about the demise of Black people in America. The book is a collection of secret documents between secret agents that outline in detail their plans to destroy Black America. It is a novel. Is it a commentary? Is it a documentary? A history book? A guide? You be the judge. Inside the pages of this highly controversial, eye-opening, uplifting, racially charged, historically accurate, and informative book is an insight into Black America and the challenges that lay before them. Discover their past, present, and ponder their future as you see how the plot is unfolding. For Black Americans, it may be one of the greatest wake-up calls of the century. For non-Blacks, it may be one of the greatest insights on subjects whispered about but never spoken aloud, and answers to questions that are too volatile to ask. *Bamboozling Black America* is an American book. The time has come for such a book as this. Once you pick it up, you will be hard-pressed to put it down. Come join in on a journey of discovery and insight. I believe that this book will spark conversation for years to come.
