Making Of Contemporary Europe:

The Making of Contemporary Europe R. Ben Jones,1980 *Contemporary Europe* William Outhwaite,2016-10-04

Europe is one of the most dynamic and interesting areas of the world pioneering in the European Union a new form of governance for half a billion people represented in the world's first directly elected transnational parliament. This book situates the European Union in a broader European global historical and geographical context providing a readable presentation of the most important facts and drawing on the theoretical approaches which have transformed the study of contemporary Europe over the past two decades. The European Union is still on the road to what has been called an unknown destination and this book presents its economic political legal and social trajectory from the middle of the last century to the present. Contemporary Europe covers some of these issues in an interdisciplinary framework aiming to situate the development of the European Union in a broader context of pan European and global processes. Europe has been cut down to size but it does not have to become a global backwater and the study of contemporary Europe's institutional reality does not have to be boring. The book counters this misperception conveying the essential facts and theories of contemporary European reality in a clear and approachable analysis. It will serve as a readable introduction both to the academic field of European studies and to contemporary Europe itself.

Nation and Identity in Contemporary Europe Brian Jenkins,Spyros A. Sofos,2003-09-02 The resilience of nationalism in contemporary Europe may seem paradoxical at a time when the nation state is widely seen as being in decline. The contributors of this book see the resurgence of nationalism as symptomatic of the quest for identity and meaning in the complex modern world. Challenged from above by the supranational imperatives of globalism and from below by the complex pluralism of modern societies the nation state in the absence of alternatives to market consumerism remains a focus for social identity. Nation and Identity in Contemporary Europe takes a fully interdisciplinary and comparative approach to the national question. Individual chapters consider the specifics of national identity in France Germany Britain Italy Iberia Russia the former Yugoslavia and Poland while looking also at external forces such as economic globalisation European supranationalism and the end of the Cold War. Setting current issues and conflicts in their broad historical context the book reaffirms that nations are not natural phenomena but constructed forms of social identity whose future will be determined in the social arena.

The featured directors are Calixto Bieito Piotr Borowski Romeo Castellucci Frank Castorf Patrice Chateau Lev Dodin Declan

Donnellan Kristian Fr dric Rodrigo Garc a Jan Lauwers Christoph Marthaler Simon McBurney Daniel Mesguich Katie Mitchell Ariane Mnouchkine Thomas Ostermeier Patrice Pavis Silviu Purc rete and Peter Sellars Travelling from London and Craiova to St Petersburg and Madrid the book examines directors working with classics new writing and new collaborative theatre forms Each chapter is written by a specialist in European theatre and provides a detail critique of production styles The directors themselves provide contributions and interviews to this multi authored work which unites the many and varied voices of European theatre in one coherent volume

Migration and the Crisis of Democracy in Contemporary

Europe Christoph M. Michael,2021-01-12 This innovative and thought provoking study puts forth a compelling analysis of the constitutive nexus at the heart of the European refugee conundrum It maps and historically contextualises some of the distinctive challenges that pervasive ethnic and cultural pluralism present to real politics as on the level of political

theorizing By systematically integrating hitherto insufficiently linked research perspectives in a novel way it lays open a number of paradoxical constellations and regressive tendencies in contemporary European democracy It thereby redirects attention to the ways in which liberal thought and liberal democratic institutions shape interact with and may even provide justification for illiberal and exclusionary practices This book thus makes an important contribution to the analysis of post migrant realities in Europe and the ways in which they are defined by imperial legacies punitive migration regimes the culturalization of mainstream politics and the discursive construction of a European Other

Rethinking European Union

foreign policy Ben Tonra,Thomas Christiansen,2018-07-30 This book reviews a variety of approaches to the study of the European Union s foreign policy Much analysis of EU foreign policy contains theoretical assumptions about the nature of the EU and its member states their inter relationships the international system in which they operate and the nature of European integration Such assumptions when not discussed openly often curtail debate This book opens up this field of enquiry so students observers and analysts of EU foreign policy can review a range of tools and theoretical templates from which the development and the trajectory of the EU s foreign policy can be studied Situated at the interface between European studies and international relations the book outlines how the EU relates to the rest of the world explaining its effort towards creating a credible effective and principled foreign security and defence policy An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence
