

SOCIAL MEDIA LITERACY

WHAT AND WHERE ARE MIDDLE SCHOOLERS LEARNING ABOUT SOCIAL MEDIA?

In a mixed method study, we surveyed **229 school staff members** and **419 parents** from 4 school districts in the Northeast and interviewed 30 parents and 6 school staff members.

Most frequently discussed topics amongst educators:

49% of educators discussed how student technology use **interferes with sleep**

46% of educators discussed students **craving constant access to devices**

43% of educators discussed considering **how online posts affect others**

Most frequently discussed topics amongst parents:

With 92% of parents reporting discussing **stranger danger**, it was the most popular topic from our survey

90% of parents discuss **cyberbullying** and mean online behaviors

85% of parents warned their children of being influenced by **peer-induced risky behaviors** online (vaping, skipping school, alcohol, etc.)

FINDINGS

- Educators focused on the prevention of their students being victimized by their own addictive and self-regulatory behaviors while parents focused more on preventing their teens from unsafe or risk-taking online peer influences.
- The fact that educators and parents **focus on different aspects** of the digital wellbeing of the child could be turned into a strength of a home-school partnership that is not competing but **complementary** with one another.

Written for psychologists, educators, researchers, and parents, this book discusses the impact of video games, popular music, television, social media, and screen addiction, fake news, and misinformation representation in media, as well as the role of big tech in the lives of consumers. The text emphasises the need for a healthy media diet and focuses on the need for media literacy in all societal groups, providing empirically based approaches to teaching media literacy, as well as sample media literacy lesson plans. *ECSM 2017 4th European Conference on Social Media* Academic Conferences and Publishing Limited, 2017-07-03 Handbook of Prosocial Education Philip Brown, Michael W. Corrigan, Ann Higgins-D'Alessandro, 2012

Summary: This handbook introduces prosocial education as an umbrella term denoting the various ways in which all players in education impact student development. **The Social Media Debate**

Devan Rosen, 2022-02-17: This accessible, student-friendly book provides a concise overview of the primary debates surrounding the impact and effects of social media. From Facebook, Twitter, and Instagram to Snapchat and TikTok, social media has become part of our everyday experience. However, its proliferation has brought a myriad of serious concerns about the long-term effects of social media on socializing and personal relationships and the impact on well-being and mental health, particularly in relation to children and adolescents, as well as issues linked to information and culture, such as privacy, misinformation, and manipulation. Featuring contributions by leading international scholars and established authorities such as Christian Fuchs, Henry Jenkins, Michael A. Stefanone, and Joan Donovan, editor Devan Rosen brings together key contemporary research from multiple disciplines in order to provide crucial insight into these debates. This book will be an important resource for students and scholars of media and communication, as well as educators, parents, policy makers, and clinicians interested in the impacts of social media. Building Professional Nursing Communication Skills Jill

Lawrence, Cheryl Perrin, Eleanor Kiernan, 2015-07-03: This essential resource guides nursing students through the concepts integral to successful communication for the duration of their degree. **Educational Research and Innovation: What Does Child Empowerment Mean Today? Implications for Education and Well-being**

OECD, 2024-05-15: Childhood is changing in ways that we are still unpacking, affected by digitalization, globalization, and climate change, as well as shocks such as the COVID-19 pandemic. In many OECD education systems, child empowerment is increasingly an explicit aim of policies and practices. But it is often poorly defined, which risks turning it into a mere slogan. With the advancement of children's rights, children are increasingly being included as stakeholders in decision-making processes. This report gives examples of how children in OECD countries can and do participate in making decisions about issues that affect them. The report examines children's emotional well-being and physical activity and the role of schools as a physical space to create

and support relationships It also underlines the untapped potential of media education when it comes to seizing opportunities in childhood Empowering all children to make the most of digital opportunities starts with further narrowing the gap in terms of access to digital tools and the Internet where inequalities are persistent and pervasive So what does child empowerment mean today Empowered children have the opportunity and ability to act on issues important and relevant to them can learn by making mistakes and are key contributors to democracy

The Role of Social Media and the Effectiveness of Communication in HIV and AIDS Prevention Razlan Rauf, 2023-07-11 Master's Thesis from the year 2022 in the subject Communications Mass Media Universiti Sains Malaysia Mass Communication course Communication language English abstract This study aims to explore the predictive role of social media use on public preventive behaviours and how the disease knowledge and eHealth literacy moderates the relationship between social media use and preventive behaviours on HIV/AIDS in Malaysia contexts Specifically it appraises the effect of social media tools via the mass media on the HIV and AIDS in Malaysia The secondary goal is assessing the perceived advantages and limitations of utilizing social networking for HIV and AIDS communication To think about how to use social networking for health related communication and more particularly HIV/AIDS communication advertising practitioners have to note which factors contribute to which elements and effective communication hinder communication The first cases of HIV in Malaysia were reported in 1986 and there was a sharp increase in 10 cases by 1990 After scientists introduced three combinations of Antiretroviral ART treatments in 1995 there was a decrease in the HIV cases In 2018 the rate of new HIV cases in Malaysia was 10 cases per 100 000 population Of these cases a total of 47 patients involved individuals under the age of 18 No treatment can eliminate the virus as a whole but HIV can be prevented or given early treatment before the onset of AIDS So early detection and safety precaution to avoid being infected by the disease is essential Social media has essentially changed how people communicate and share information and health communication has indeed been immune to this information revolution With the advent of Facebook people without having to meet can interact with each other Nowadays many new media facilities such as the internet smartphones and others have given society a new dimension in understanding HIV/AIDS and its actions There is very little research on public awareness of HIV/AIDS and the role played by social media in dealing with this disease
