Making History Peter Lambert, 2017      **Making History** Jorma Kalela, 2011-11-18 Everyone has a personal connection to the past independent of historical inquiry So what is the role of the historian Making History argues that historians have damagingly dissociated the discipline of history from the everyday nature of history defining their work only in scholarly terms Exploring the relationship between history and society Kalela makes the case for a more participatory historical research culture in which historians take account of their role in society and the ways in which history making as a basic social practice is present in their work Making History not only asks provocative questions about the role of the historian it also provides practical guidance for students and historians on planning research projects with greater public impact This book is vital reading for all historians lay and professional and will be an essential text for undergraduate and postgraduate courses on historiography and research methods      **Making History** Edward Palmer Thompson, 1994 A collection of twenty historical and review essays published over a period of thirty years covers topics ranging from Mary Wollstonecraft to the British family      **TV Guide** Stephen F. Hofer, 2006 This book looks at the origins and growth of television through the pages of TV Guide and covers the complete run of this American icon from the first guides in 1953 to the last issue in guide format on October 9 2005 It includes full color reproductions of every cover ever printed and is both a collector s guide with pricing included and a retrospective view of the medium      *Feminism as Life's Work* Mary K. Trigg, 2014-06-23 With suffrage secured in 1920 feminists faced the challenge of how to keep their momentum going As the center of the movement shrank a small self appointed vanguard of modern women carried the cause forward in life and work *Feminism as Life s Work* profiles four of these women the author Inez Haynes Irwin the historian Mary Ritter Beard the activist Doris Stevens and Lorine Pruette a psychologist Their life stories told here in full for the first time embody the changes of the first four decades of the twentieth century and complicate what we know of the period Through these women s intertwined stories Mary Trigg traces the changing nature of the women s movement across turbulent decades rent by world war revolution global depression and the rise of fascism Criticizing the standard division of feminist activism as a series of historical waves Trigg exposes how Irwin Beard Stevens and Pruette helped push the U S feminist movement to victory and continued to propel it forward from the 1920s to the 1960s decades not included in the wave model At a time widely viewed as the doldrums of feminism the women in this book were in fact taking the cause to new sites the National Women s Party sexuality and relations with men marriage and work and financial independence In their utopian efforts to reshape work sexual relations and marriage modern feminists ran headlong into the harsh realities of male power the sexual double standard the demands of motherhood and gendered social structures In *Feminism as Life s Work* Irwin Beard Stevens and Pruette emerge as the heirs of the suffrage movement guardians of a long feminist tradition and catalysts of the belief in equality and difference Theirs is a story of courage application and perseverance a story that revisits the bleak and lonely years of the U S women s movement

and emerges with a fresh perspective of the history of this pivotal era      Making History Richard Cohen,2022-04-19 A supremely entertaining The New Yorker exploration of who gets to record the world's history from Julius Caesar to William Shakespeare to Ken Burns and how their biases influence our understanding about the past There are many stories we can spin about previous ages but which accounts get told And by whom Is there even such a thing as objective history In this witty wise and elegant The Spectator book Richard Cohen reveals how professional historians and other equally significant witnesses such as the writers of the Bible novelists and political propagandists influence what becomes the accepted record Cohen argues for example that some historians are practitioners of Bad History and twist reality to glorify themselves or their country Scholarly lively quotable up to date and fun Hilary Mantel author of the bestselling Thomas Cromwell trilogy Making History investigates the published works and private utterances of our greatest chroniclers to discover the agendas that informed their and our views of the world From the origins of history writing when such an activity itself seemed revolutionary through to television and the digital age Cohen brings captivating figures to vivid light from Thucydides and Tacitus to Voltaire and Gibbon Winston Churchill and Henry Louis Gates Rich in complex truths and surprising anecdotes the result is a revealing exploration of both the aims and art of history making one that will lead us to rethink how we learn about our past and about ourselves      Making History Count C. H. Feinstein,Mark Thomas,2002 Making History Count introduces the main quantitative methods used in historical research The emphasis is on intuitive understanding and application of the concepts rather than formal statistics no knowledge of mathematics beyond simple arithmetic is required The techniques are illustrated by applications in social political demographic and economic history Students will learn to read and evaluate the application of the quantitative methods used in many books and articles and to assess the historical conclusions drawn from them They will also see how quantitative techniques can open up new aspects of an enquiry and supplement and strengthen other methods of research This textbook will encourage students to recognize the benefits of using quantitative methods in their own research projects The text is clearly illustrated with tables graphs and diagrams leading the student through key topics Additional support includes five specific historical data sets available from the Cambridge website      Making History Graphic Daniel Chauncey Knowlton,1925      Brian Friel A. Roche,2011-05-25 Friel is recognised as Ireland's leading playwright and due to the ability of plays like Translations and Dancing at Lughnasa to translate into other cultures he has made a major impact on world theatre This study draws on the Friel Archive to deepen our understanding of how his plays were developed      A Subtle Balance Edward A. Parson,2015-06-01 A critical review of major trends and enduring tensions in Canadian public policy and governance since 1970      A Cultural Biography of the Prostate Ericka Johnson,2021-09-07 What contemporary prostate angst tells us about how we understand masculinity aging and sexuality We are all suffering an acute case of prostate angst Men worry about their own prostates and those of others close to them women worry about the prostates of the men they love The prostate a gland located directly under the bladder lurks on the periphery of many men's

health issues but as an object of anxiety it goes beyond the medical affecting how we understand masculinity aging and sexuality In *A Cultural Biography of the Prostate* Ericka Johnson investigates what we think the prostate is and what we use the prostate to think about examining it in historical cultural social and medical contexts Johnson shows that our ways of talking about writing about imagining and imaging the prostate are a mess of entangled relationships She describes current biomedical approaches reports on the discovery of the prostate in the sixteenth century and its later appearance as both medical object and discursive trope and explores present day diagnostic practices for benign prostate hyperplasia which transform a process urination into a thing the prostate Turning to the most anxiety provoking prostate worry prostate cancer Johnson discusses PSA screening and the vulnerabilities it awakens or sometimes silences and then considers the presence of the absent prostate how the prostate continues to affect lives after it has been removed in the name of health
