Making A Quantum Leap:

Making a Quantum Leap Scott Nance,1992-05 **Make a Quantum Leap in Your Consciousness on the Road To Ascension** Dr. Richard A. Huntoon,2011-11-10 Why have you chosen this book Was the title intriguing to you Have you like many of us been searching for answers Have you been given a difficult set of circumstances that are currently causing you to re evaluate your life Are you looking for causes that might explain your diffi culties Is it simply time for you to evolve consciously Perhaps you are discovering your true life purpose and wish to make a contribution to humanity Whatever your reason I am glad you have chosen to read this book Let s be clear your life is 100 % about you period That is a bold statement and perhaps it sounds like a selfish one to you Of course there are others involved in your life The things we do and do not do will certainly have an effect on others just as what they do or do not do will have an effect on each of us And still your life is 100 % about you If you are tired of repeating the same life patterns over and over again this book will help you unlock your unconscious mind and allow you to move forward in your life consciously **Making Quantum Leaps & Knowing Zero Limits!** B. How to Make the Quantum Leap Without Falling in the River Bonnie Lee Tancre,2006-01 The themes in Quantum Leap are varied but once understood provide a road map as we travel through life First we create and attract everything in our lives therefore I accept full responsibility for my life Change happens every day We can accept it and move forward or resist it and become depressed diseased or deceased If we only look at the obvious we miss 90% of the meaning in life just like viewing the tip of the iceberg as the total picture That sank the Titanic do you want to go down with the ship Although our ultimate goal is to express unconditional love for others we must first learn to love ourselves unconditionally This is the most difficult task we will ever attempt Life is not hard life is a process It s up to us to decide how difficult we choose to make it Last but definitely not least we learn that we don t make mistakes we take detours ENJOY THE RIDE
