**Making Mark Twain Work in the Classroom** James S. Leonard, 1999 A collection of articles on Twain's work expressing a broad range of critical perspectives and pedagogical methods intended to address race, gender, and class issues in the classroom

*The Mercurial Mark Twain(s)* James L. Machor, 2023-03-15 Who was Mark Twain? Was he the genial author of two beloved boys' books, the white-haired and white-suited avuncular humorist, the realistic novelist, the exposé of shams, the author repressed by bourgeois values, or the social satirist whose later writings embody an increasingly dark view? In light of those and other conceptions, the question we need to ask is not who he was but how did we get so many Marks? Twain's *The Mercurial Mark Twain's Reception History and Iconic Authorship* provides answers to that question by examining the way Twain, his texts, and his image have been constructed by his audiences. Drawing on archival records of responses from common readers, reviewer reactions, analyses by Twain scholars and critics, and film and television adaptations, this study provides the first wide-ranging, fine-grained historical analysis of Twain's reception in both the public and private spheres from the 1860s until the end of the twentieth century

Constructing Mark Twain Laura E. Skandera-Trombley, Michael J. Kiskis, 2001 The thirteen essays in this collection combine to offer a complex and deeply nuanced picture of Samuel Clemens. With the purpose of straying from the usual notions of Clemens, most notably the Clemens-Twain split that has ruled Twain scholarship for over thirty years, the editors have assembled contributions from a wide range of Twain scholars. As a whole, the collection argues that it is time we approach Clemens not as a shadow behind the literary persona but as a complex and intricate creator of stories, a creator who is deeply embedded in the political events of his time and who used a mix of literary, social, and personal experience to fuel the movements of his pen. The essays illuminate Clemens's connections with people and events not usually given the spotlight and introduce us to Clemens as a man deeply embroiled in the process of making literary gold out of everyday experiences. From Clemens's wonderings on race and identity to his looking to family and domesticity as defining experiences, from musings on the language that Clemens used so effectively to consideration of the images and processes of composition, these essays challenge long-held notions of why Clemens was so successful and so influential a writer. While that search itself is not new, the varied approaches within this collection highlight markedly inventive ways of reading the life and work of Samuel Clemens
