Teaching and Learning in a Diverse World Patricia G. Ramsey, 2015-05-29 How can we create truly multicultural classrooms? In this new edition of her popular text, renowned early childhood educator Patricia Ramsey draws on a wide range of research and practice from different communities around the world to further explore the complexities of raising and teaching young children in a world fraught with societal divisions and inequities. Using engaging examples and stories, this comprehensive volume offers concrete suggestions to encourage teachers to reflect on their own histories and experiences and to challenge and rethink their assumptions and attitudes toward children and teaching. This new up-to-date edition describes research-based classroom practices to engage children in exploring the complexities of race, economic inequities, immigration, environmental issues, and sustainability, gender and sexual orientation and identities, and abilities and disabilities. It also addresses the challenges of teaching in the context of globalization, pervasive social media, and increasing standards and accountability. Book Features: Addresses social and economic inequities and how they affect staff relationships, interactions with parents, and children's classroom experiences. Offers strategies to help teachers initiate conversations with colleagues, parents, and children. Discusses long-term structural decisions about early childhood programs as well as day-to-day classroom teaching plans.
