The Making of the American Nation J. Arthur Partridge, 2022-01-25 Reprint of the original first published in 1866 *Chosen Nation* Braden P. Anderson, 2012-01-05 Christian teaching and modern sensibilities both eschew nationalism as an extreme fanatical form of patriotism an excessive or disordered form of an otherwise healthy and proper national identity But what if the problem of nationalism is something much more fundamental What if nationalism is actually the process leading to national identity in the first place And what happens when this process entails selectively appropriating and reinterpreting the Christian tradition for the sake of the envisioned nation This book takes up these questions within the context of American Christian nationalism Here the process of interweaving the Christian narrative with American history and myth is examined in depth through a thorough engagement with scholarship on nationalism and within a framework shaped by contemporary theopolitical studies and the biblical narrative The study aims to discern how the Christian Scriptures and theological

tradition have been used by Christians themselves to further what amounts to an alternative gospel In so doing this book charts a path for the church to evaluate itself honestly in light of Christ s lordship repent and learn to tell its story more truly

Immigration, Assimilation, and the Cultural Construction of American National Identity Shannon Latkin Anderson, 2015-11-19 Over the course of the 20th century there have been three primary narratives of American national identity the melting pot Anglo Protestantism and cultural pluralism multi culturalism This book offers a social and historical perspective on what shaped each of these imaginings when each came to the fore and which appear especially relevant early in the 21st century These issues are addressed by looking at the United States and elite notions of the meaning of America across the 20th century centering on the work of Horace Kallen Nathan Glazer and Daniel Patrick Moynihan and Samuel P Huntington Four structural areas are examined in each period the economy involvement in foreign affairs social movements and immigration What emerges is a narrative arc whereby immigration plays a clear and crucial role in shaping cultural stories of national identity as written by elite scholars These stories are represented in writings throughout all three periods and in such work we see the intellectual development and specification of the dominant narratives along with challenges to each Important conclusions include a keen reminder that identities are often formed along borders both external and internal that structure and culture operate dialectically and that national identity is hardly a monolithic static formation *The Making of the American Nation* Charles Ellsworth Martz, 1926 **Making of the American Nation** Arthur Gilman, 2019-03-12 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *West American History* Hubert Howe Bancroft, 1902 Establishment of a National Home in Palestine United States.
