The Making of Sikh Scripture Gurinder Singh Mann, 2001 The Adi Granth the primary scripture of the Sikhs comprises approximately 3000 hymns This work attempts to construct a comprehensive picture of the making of Sikh canon drawing on the recently discovered early manuscripts as well as the extensive secondary literature on the topic

Teachings of the Sikh Gurus Christopher Shackle, Arvind Mandair, 2013-07-04 Recognized masterpieces of Indian literature the Guru Granth Sahib and the Dasam Granth are fundamental to the Sikh religion not only in the physical layout of temples and in ceremonies of worship but as infallible reference texts offering counsel and instruction Teachings of the Sikh Gurus presents a brand new selection of key passages from these sacred scriptures translated into modern English by leading experts Christopher Shackle and Arvind pal Singh Mandair Including six longer compositions and many shorter hymns thematically organised by topics such as Time and Impermanence Self and Mind Authority and Ethics the book s accessible and carefully chosen extracts distil the essence of Sikhism s remarkable textual and intellectual legacy depicting how its message of universal tolerance suits the contemporary world The detailed introduction and notes to the translations aid readers comprehension of the hymns form and content as well as providing some historical context making it an ideal introduction to Sikh literature

Theorizing Scriptures Vincent Wimbush, 2008-01-04 Historically religious scriptures are defined as holy texts that are considered to be beyond the abilities of the layperson to interpret Their content is most frequently analyzed by clerics who do not question the underlying political or social implications of the text but use the writing to convey messages to their congregations about how to live a holy existence In Western society moreover what counts as scripture is generally confined to the Judeo Christian Bible leaving the voices of minorities as well as the holy texts of faiths from Africa and Asia for example unheard In this innovative collection of essays that aims to turn the traditional bible study definition of scriptures on its head Vincent L Wimbush leads an in depth look at the social cultural and racial meanings invested in these texts Contributors hail from a wide array of academic fields and geographic locations and include such noted academics as Susan Harding Elisabeth Sh ssler Fiorenza and William L Andrews Purposefully transgressing disciplinary boundaries this ambitious book opens the door to different interpretations and critical orientations and in doing so allows an ultimately humanist definition of scriptures to emerge

Literary Cultures in Early Modern North India Imre Bangha, Danuta Stasik, 2024-06-11 Literary Cultures in Early Modern North India Current Research grows out of over a 40 year tradition of the triennial International Conferences on Early Modern Literatures in North India ICEMLNI initiated to share Bhakti in current research This volume brings together a selection of contributions from some of the leading scholars as well as emerging researchers in the field originally presented at the 13th ICEMLNI University of Warsaw 18-22 July 2018 Considering innovative methodologies and tools the volume presents the current state of research on early modern sources and offers new inputs into our understanding of this period in the cultural history of India This collection of essays is in the

tradition of Bhakti in current research volumes produced from 1980 onward but reflecting our current understanding of early modern textualities The book operates on the premises that the centuries preceding the colonial conquest of India which in scholarship influenced by orientalist concepts has often been referred to as medieval However these languages already participated in modernity through increased circulation of ideas new forms of knowledge new concepts of the individual of the community and of religion The essays cover multiple languages Indian vernaculars Sanskrit Apabhramsha Persian different media texts performances paintings music and traditions Hindu Jain Muslim Sant Sikh analyzing them as individual phenomena that function in a wider network of connections at textual intertextual and knowledge system levels *If All the World Were Paper* Tyler W. Williams, 2024-10-01 How do writing and literacy reshape the ways a language and its literature are imagined If All the World Were Paper explores this question in the context of Hindi the most widely spoken language in Southern Asia and the fourth most widely spoken language in the world today Emerging onto the literary scene of India in the mid fourteenth century the vernacular of Hindi quickly acquired a place alongside classical languages like Sanskrit and Persian as a medium of literature and scholarship The material and social processes through which it came to be written down and the particular form that it took as illustrated storybooks loose leaf textbooks personal notebooks and holy scriptures played a critical role in establishing Hindi as a language capable of transmitting poetry erudition and even revelation If All the World Were Paper combines close readings of literary and scholastic works with an examination of hundreds of handwritten books from precolonial India to tell the story of Hindi literature's development and reveal the relationships among ideologies of writing material practices and literary genres Tyler W Williams forcefully argues for a new approach to the literary archive demonstrating how the ways books were inscribed organized and used can tell us as much about their meaning and significance as the texts within them This book sets out a novel program for engaging with the archive of Hindi and of South Asian languages more broadly at a moment when much of that archive faces existential threats
