## Music Learning Pro:

**Hearing and Writing Music** Ron Gorow, 2011-03-15 A self training manual as well as a classroom text this book is a complete step by step course to develop the musician's ability to hear and notate any style of music. Personal training theory and exercises produce techniques which are combined in an integrated craft which may be applied to composition orchestration arranging improvisation and performance. A kind of finishing school for those who wish to pursue a career in composing orchestrating arranging or performing. The Score Society of Composers and Lyricists A myriad of practical information. Comprehensive ear training important because aural skills are among the most overlooked in music education. Survey of New Teaching Materials Jazz Educators journal A synthesis of the author's vast knowledge and his quest to define the question How do we hear ITG Journal A wonderfully systematic approach to ear training neatly designed and structured it just flows Direct and easily understood New books Jazz Educators Journal Bernard Brandt says Hearing and Writing Music by Ron Gorow is a superb book. It makes a simple and elegant presentation of the internal process by which we hear sounds and music how we recognize intervals chords melody harmony counterpoint and the timbre of instrumentation orchestration how we can develop the skills of listening auditory memory and imagination and how to use these skills to hear and to write down music of any sort. The hallmark of an expert is the ability to explain the basics of his field as simply as possible. By that standard Mr Gorow has proven his expertise in this book. I note that the other reviews both for Amazon and in musical journals tend to limit the importance of Hearing and Writing Music to ear training. I believe that Mr Gorow's book is valuable for much more than ear training. I have studied it and as a result of that study I believe that my auditory memory and imagination and my abilities in score reading have improved enormously. Further I have been able to use the skills in this book to transcribe melodies harmonies and counterpoint almost effortlessly both those that I have heard and those which existed only in my imagination. This book has opened many doors for me I believe that it can do so for many others.
