Filippo Gilardi, Celia Lam

International Bestseller Social Media Literacy:

Media Literacy in Action Renee Hobbs, 2024-10-14 There's never been a more important time for students to develop media literacy competencies. When students ask critical questions about the media they consume, they develop fundamental knowledge and critical thinking skills that prepare them for life, work, and meaningful citizenship. *Media Literacy in Action* addresses learners who are simultaneously active as both creators and consumers of media messages. At the same time, the book recognizes that everyone is vulnerable to media influence because of our dependence on the instant gratification and feelings of connectedness that digital platforms provide. To thrive in a media-saturated society, people need to ask critical questions about what we watch, see, listen to, read, and use. This book gives students those tools. Key features of the second edition: Critical examination of AI technologies, algorithmic personalization, data privacy, and surveillance, and the increased global regulation of digital platforms. Attention to media literacy for empowerment and protection. Inquiry-oriented approach to learning that cultivates intellectual curiosity and creative expression. Full color presentation with figures and photos to increase student engagement. Each chapter includes Media Literacy Trailblazers Profiles of key thinkers and their theories, connect students with the discipline of media literacy. *Media Literacy DISCourse* NEW Visual representations of media literacy theoretical principles help learners internalize the practice of asking critical questions as they respond to specific media examples. *Learning in Action* NEW Summary and vocabulary sections combine with Analyze, Create, Reflect, and Act activities to empower students to apply ideas from each chapter. Supplemental Materials available at www.mlaction.com. Students can review key ideas, learn about more Media Literacy Trailblazers, and watch videos aligned with each chapter. Instructors can access a Teacher's Guide of best practices, in-class activities, homework, and projects. Also available are chapter summaries, lecture slides, YouTube playlists, and test materials.

The Mediated World David T. Z. Mindich, 2023-12-11 A full color, interdisciplinary exploration of how media and mass communication shape society and how students can take control of their media futures. Today's students have a world of knowledge at their fingertips and no longer need books to list names and dates. What they need is the story of how everything fits together and the critical tools to take charge of their place within that story. David T. Z. Mindich's *The Mediated World* charts the story of media as it has shaped human life and as it infuses every aspect of our modern existence. Mindich's engaging narrative style focuses on concepts and real-world contexts to promote the media literacy students need to understand their personal relationships with media. Empowered as media consumers, creators, and curators, students realize their responsibility to work within the vast world of media to create more positive and productive futures. The second edition of this text brings historical media and overarching themes to life for students. Each chapter opens with a contemporary vignette that meets students in the current moment before encouraging them to consider the past. Application sidebars suggest practical activities that allow students to delve deeper into topics while Reflection boxes encourage students to think critically about their own media use. With a strong

emphasis on media literacy that treats students as media stakeholders who have a vested interest in understanding its workings and effects Mindich's text is the perfect book for a generation of students looking to take charge of their futures in this mediated world. New to the Second Edition New chapter opening vignettes connect with students in the current moment before welcoming them to consider the past. New Chapter 8 Representation and the Lives that Matter in the Media encourages students to think critically about which people get to be heard and which are overlooked. New Chapter 13 Hot and Cold Video Games critically explores a powerful media force in students' recreational lives. Expanded discussions on current cultural, political, and technological references engage with controversies. Features Full color layout with photos and graphics to enrich students' reading experience. Integrated focus on representation in media reminds students of the pervasive impact of bias across society. Margin keyword definitions help students develop critical vocabularies. Three different feature boxes Reflection, Application, and Now and Then reinforce concepts and engage students' critical thinking skills. Chapter learning objectives, chapter summaries, and discussion questions reinforce historical frameworks and key concepts. For instructors a test bank, lecture notes, and slides, and a sample syllabus. For the students chapter flashcards, a digital glossary, and videos and links.
