advancing information technology businesses must adapt to more efficient structures that utilize the latest in robotics and machine learning capabilities in order to create optimal human robot cooperation. However, there are vital rising concerns regarding the possible consequences of deploying artificial intelligence, sophisticated robotic technologies, automated vehicles, self-managing supply modes, and blockchain economies on business performance and culture, including how to sustain a supportive business culture and to what extent a strategic fit between human robot collaboration in a business ecosystem can be created. *The Handbook of Research on Strategic Fit and Design in Business Ecosystems* is a collection of innovative research that builds a futuristic view of evolving business ecosystems and a deeper understanding of business transformation processes in the new digital business era. Featuring research on topics such as cultural hybridization, Industry 4.0, and cybersecurity, this book is ideally designed for entrepreneurs, executives, managers, corporate strategists, economists, IT specialists, IT consultants, engineers, students, researchers, and academicians seeking to improve their understanding of future competitive business practices with the adoption of robotic and information technologies. [De Gruyter Handbook of Media and Social Change in the Global South](#) Kehbuma Langmia, 2025-12-15. The birth of the newspapers, radio, and television in the 19th century brought various interconnected social, behavioral, and cultural changes in the lives of the colonizer and the colonized in the economically developing nations. Then, in the 20th century and now the 21st century, the birth of digital media for political, social, cultural, and economic communications have witnessed divergent results in the West and the non-Western countries. The Global South is currently facing digital divides and issues related to media illiteracy that tend to impact people's lives more than those in the North. Furthermore, a significant shift in online and offline communicative behavior has had various effects in the way the young and the old, male and female, the haves and the have-nots interact in the media space. This handbook brings together a multidisciplinary group of authors from the Global South and the diaspora to document, examine, expose, and critically assess the nature, role, and impact of the social changes brought by the emergence of the mediated forms of communication in the Global South. This remarkable volume is a must-have resource for anyone interested in communication and social change and development and social change in the Global South.
