Current Research in Library & Information Science, 1988 The Social Studies Professional, 2002 Taking Sides: Clashing Views in Mass Media and Society Alison Alexander, Jarice Hanson, 2010-02-23 This volume presents current controversial issues surrounding mass media and society in a debate style format designed to stimulate student interest and develop critical thinking skills. Mass media refers collectively to all media technologies including the Internet, television, newspapers and radio which are used for mass communications and to the organizations which control these technologies. This topic is framed with a general summary and introduction and a postscript or challenge questions. This work features an annotated listing of selected World Wide Web sites and an online instructor's resource guide with testing material available. The readings which represent the arguments of leading scholars and media commentators discuss topics such as the media's relationship with the public, freedom of speech and the future of media and media technologies. Rethinking Media Education Anita Nowak, Sue Abel, Karen Ross, 2007 This collection discusses and analyzes the efficacy of media education around the world, paying particular attention to whether and how it improves the critical thinking skills of students. Many books describe the importance of media education but few evaluate its effectiveness. Implicit is a belief that without a thorough understanding of the extent to which media education achieves its aims or fails to do so, its potential cannot be fulfilled. **Canadian Almanac & Directory, 2015** Tannys Williams, 2014-10 The Canadian Almanac Directory is the most complete source of Canadian information available.
