Louis Stettner's New York:

Louis Stettner's New York, 1950s-1990s, 1996 Renowned photographer Louis Stettner depicts the ever evolving city of New York in a fascinating collection of pictures ranging from the 1950s through the 1990s to the present 100 duotone photographs *Penn Station, New York* Louis Stettner, Adam Gopnik, 2015-11-24 A poetic look at Penn Station from Louis Stettner one of the masters of street photography published in book form for the first time Louis Stettner is one of the last living members of the avant garde New York School of photography of the 1950s which challenged many of the long accepted foundations of art form His Penn Station series of the late 1950s represents some of his most important work gathered here in a single form for the first time The series is less a portrait of the building than a study of people at once in transit and in suspension The pivotal moment for Stettner occurred in 1957 the year before he began the series in earnest He had taken a photograph of a girl in a party dress stepping from one circular patch of sunlight to another across the vast floor of Penn station away from the photographer into the shadowy distance A year later Stettner felt compelled to return and create the series but he found the photographs not newsworthy enough to publish With time and distance their significance has been recognized and the series is now considered a major work of art *Louis Stettner* Louis Stettner, 1993 Wisdom Cries Out in the Streets Louis Stettner, 1999 Retrospective of photographs taken from the late 1940s to the late 1990s Louis Stettner Clément Chéroux, 2019-03-19 Over nearly eight decades Louis Stettner 1922 2016 defined a singular poetic vision in photography honing a style influenced by both American street photography and French humanism Stettner began working in the 1930s becoming a member of the Photo League in New York and befriending Lisette Model Paul Strand and Weegee After serving in the U S Army as a combat photographer he moved to Paris in 1947 where he met the influential street photographer Brassa The following decades were the most important in his career as he traveled back and forth between Paris and New York and found inspiration in that geographical duality Published to celebrate a major acquisition of Stettner's prints by the San Francisco Museum of Modern Art this beautiful volume presents iconic photographs from the entirety of Stettner's career along with 19 essays about photography written by Stettner himself originally published in the iconic magazine Camera 35 from 1971 to 1979 as well as a transcription of Stettner's fundamental lecture Photography Style Reality delivered at the International Center of Photography in 2002 *Louis Stettner* Sally Martin Katz, David Company, Karl Orend, James Iffland, 2024-07-18 An authoritative full career retrospective of Louis Stettner the great twentieth century American photographer reproducing his finest works in one stunning volume Louis Stettner Louis Stettner, 1992 *Early Joys* Louis Stettner, 1987 **Weegee** Weegee, 1977 *Louis Stettner (Photofile)* Virginie Chardin, 2025-09-17 The perfect primer on American photographer Louis Stettner Brooklyn born Louis Stettner 1922 2016 first took up a camera as a teenager and went on to establish an extraordinary career that lasted almost eighty years After photographing life on the streets of New York he joined the famous Photo League and befriended Sid Grossman and Weegee In the Second World War

he served as a combat photographer and the fight against fascism strengthened his faith in Marxism and the working class. Living between New York and Paris he amassed a huge body of work that combined elements of New York street photography with lyrical humanism in the French style. His subjects were many and varied: passengers on the subway and tourists in the streets, Spanish fishermen and American beatniks, protests and demonstrations, landscapes and trees. But no matter where he found himself he looked for beauty in the everyday and never lost his fundamental compassion and solidarity with ordinary people.

Louis Stettner Louis Stettner, François Bernheim, 1998 **History of Photography** Laurent Roosens, Luc Salu, 1989-01-01 The fourth volume in a history of photography this is a bibliography of books on the subject. **Encyclopedia of Twentieth-Century Photography, 3-Volume Set** Lynne Warren, 2005-11-15 The Encyclopedia of Twentieth Century Photography explores the vast international scope of twentieth century photography and explains that history with a wide ranging interdisciplinary manner. This unique approach covers the aesthetic history of photography as an evolving art and documentary form while also recognizing it as a developing technology and cultural force. This Encyclopedia presents the important developments, movements, photographers, photographic institutions and theoretical aspects of the field along with information about equipment, techniques and practical applications of photography. Photography after Photography Abigail Solomon-Godeau, 2017-03-23 Presenting two decades of work by Abigail Solomon Godeau, *Photography after Photography* is an inquiry into the circuits of power that shape photographic practice, criticism and historiography. As the boundaries that separate photography from other forms of artistic production are increasingly fluid, Solomon Godeau, a pioneering feminist and politically engaged critic, argues that the relationships between photography, culture, gender and power demand renewed attention. In her analyses of the photographic production of Cindy Sherman, Robert Mapplethorpe, Susan Meiselas, Francesca Woodman and others, Solomon Godeau refigures the disciplinary object of photography by considering these practices through an examination of the determinations of genre and gender as these shape the relations between photographers, their images and their viewers. Among her subjects are the 2006 Abu Ghraib prison photographs and the Cold War era exhibition *The Family of Man* insofar as these illustrate photography's embeddedness in social relations, viewing relations and ideological formations.

Surprising too might be the media's steady adherence to its continual tugging at its philosophical and ethical moorings. These 39 essays written and edited by the
