Are you looking for the best way to learn French Well look no further This book is simply put the best on the market for learning French Why do I say that Because this book does what language books should do teach you the mechanics of the language not a bunch of tourist trap phrases that you ll forget the second you leave the country If books don t do that then they make the critical mistake of going into far too much detail and managing to bore you half to death by virtue of the fact that they ve spent 30 pages going on about three different kinds of articles I don t do that either What this book does do and does very well in fact is set you up with the knowledge that you want and need of French in a very short time frame so that you can blast through this book and already feel like you re set up for success This book isn t a reference nor is it a crash course on the French language it s both You ll read through this book and understand then you ll apply what you ve learned and inevitably look back at this book down the line to rehash your memory and you ll grow even more as a French speaker Don t waste your time and money on a subpar French book Go with the best from the get go **German Language Learning** Language Building Lab,2020-12-30 3
