Love And Attachment Contemporary Issues And Treatment Considerations:

Love and Attachment Carol Tosone, Theresa Aiello, 1999 It will help therapists hone their clinical skills to promote their clients' growth in love and attachment. **BOOK JACKET** *The Handbook of Addiction Treatment for Women* Shulamith Lala Ashenberg Straussner, Stephanie Brown, 2001-01-18 Providing essential theoretical and practical guidelines for clinicians, educators, policymakers, and public health professionals. *The Handbook of Addiction Treatment for Women* is a comprehensive resource of the most current research and knowledge from recognized experts in the field of addiction and treatment. This much-needed guide offers an historical context on the issue of women and addiction, examines the myriad challenges of the female addict, and includes recommendations for choosing a course of treatment that will meet the specific needs of an individual woman addict.

The Legacy of Fairbairn and Sutherland Jill Savege Scharff, David E. Scharff, 2005-10-26 *The Legacy of Fairbairn and Sutherland* provides the first comprehensive review of W R D Fairbairn and John Sutherland's theories on psycho-social development. It reviews Fairbairn and Sutherland's ideas, traces the philosophical roots of their thinking, explores their legacy, and demonstrates their relevance to contemporary practice. International contributors set these psychoanalytic theories in their philosophical and cultural context. They discuss the growing acceptance of Fairbairn and Sutherland's work in Europe and the Americas. They discuss the theories' impact on current thinking in subjects such as sexuality, hysteria, autonomy, and repression. They re-examine the theories in the light of current clinical experience, illuminate them with reference to contemporary psychoanalytic theories, and illustrate them with examples from work with children, adults, groups, and families. This book presents an original fusion of the ideas of two of the most noteworthy figures in recent psychoanalysis. It will prove a fascinating reading for all practicing and training psychotherapists and psychoanalysts.

Mourning Companion Animals Susan Dowd Stone, 2024-04-11 *Mourning Companion Animals* is a guidebook for mental health clinicians searching for effective, compassionate resources to guide their clients through the often-devastating experience of animal companion loss. Chapters offer powerful and comprehensive strategies to heal animal companion loss, based in sound, evidence-based theoretical perspectives. The included author-generated inventory, the animal companion bereavement questionnaire, provides further assistance in clinician exploration of each client's unique bond with their lost companion. The book's content is the result of more than twenty-five years of extensive work within the human-animal bond, clinical training in the referenced therapies, and application of major psychodynamic theories.

Doing More With Less Barbara Dane, Carol Tosone, Alice Wolson, 2001-07 Confronting the challenge to provide sound clinical treatment in brief therapy, this timely book will enrich the practices of all psychotherapists. Designed and arranged according to the DSM IV diagnostic categories, each chapter addresses the short-term treatment of a specific condition or patient population. Starting from the premise that psychodynamically trained clinicians already possess the requisite skills to conduct short-term treatment, the editors demonstrate how to adapt these skills to a time-limited approach.
