*Love and Language* Louise K. Horowitz, **Love and language** Louise Kahan Horowitz, 1973 A Critical Bibliography of French Literature H. Gaston Hall, 1983-02-01 Richard A Brooks general editor v **Encyclopedia of Life Writing** Margaretta Jolly, 2013-12-04 First published in 2001 Routledge is an imprint of Taylor Francis an informa company **The Nature of Love, Volume 2** Irving Singer, 2009-02-20 An examination of ideas and ideals of medieval courtly love and the transition into later Romantic love analyzing the work of Dante Shakespeare and Schopenhauer among many others Review monumental Boston Globe one of the major works of philosophy in our century Nous wise and magisterial Times Literary Supplement and a masterpiece of critical thinking that is a timely eloquent and scrupulous account of what after all still makes the world go round Christian Science Monitor In the second volume Singer studies the ideas and ideals of medieval courtly love and nineteenth century Romantic love as well as the transition between these two perspectives According to the traditions of courtly love in the twelfth century and thereafter not only God but also human beings in themselves are capable of authentic love The pursuit of love between man and woman was seen as a splendid ideal that ennoble both the lover and the beloved It was something more than libidinal sexuality and involved sophisticated and highly refined courtliness that emulated religious love in its ability to create a holy union between the participants Adherents to Romantic love in later centuries affirmed the capacity of love to effect a merging between two people who thus became one Singer analyzes the transition from courtly to Romantic by reference to the writings of many artists beginning with Dante and ending with Richard Wagner as well as Neoplatonist philosophers of the Italian Renaissance Descartes Spinoza Rousseau Hume Kant Hegel and Schopenhauer In relation to romanticism itself he distinguishes between two aspects benign romanticism and Romantic pessimism that took on renewed importance in the twentieth century *Psychosomatic Disorders in Seventeenth-Century French Literature* Bernadette Höfer, 2016-04-15 Bernadette Höfer s innovative and ambitious monograph argues that the epistemology of the Cartesian mind body dualism and its insistence on the primacy of analytic thought over bodily function has surprisingly little purchase in texts by prominent classical writers In this study Höfer explores how Surin Molière Lafayette and Racine represent interconnections of body and mind that influence behaviour both voluntary and involuntary and that thus disprove the classical notion of the mind as distinct from and superior to the body The author s interdisciplinary perspective utilizes early modern medical and philosophical treatises as well as contemporary medical compilations in the disciplines of psychosomatic medicine neurobiology and psychoanalysis to demonstrate that these seventeenth century French writers established a view of human existence that fully anticipates current thought regarding psychosomatic illness Handbook of French Popular Culture Pierre L. Horn, 1991-05-21 Throughout the world there has been much scholarly and general interest in French popular culture but very little has been written on the subject in English The authors of this book address that lack in a series of highly readable and well documented essays describing

French life styles attitudes and entertainments as well as the writers and performers currently favored by the French public Several chapters explore French tastes in popular literature and other reading matter including comics cartoons mystery and spy fiction newspapers and magazines and science fiction Film popular music radio and television are also discussed in detail and influences from other cultures particularly American imports are assessed The remaining essays examine French sports the use of leisure time the French style of eating and drinking and relations between men and women and their attitudes toward romantic love Each chapter provides up to date historical and bibliographic information that will enable the reader to pursue subjects of particular interest Written by an international group of specialists this handbook offers the benefits of broad coverage a variety of viewpoints and solid scholarship Love and Language Louise K. Horowitz,1977 **A Critical Bibliography of French Literature: The seventeenth century** David Clark Cabeen,1947 The numerous selections in this volume give for the first time a true idea of the range of Swift s writing over half a century Besides many familiar works the editors have included correspondence political pamphlets poetry a sermon and pieces for the popular press **PMLA: PUBLICATIONS OF THE MODERN LANGUAGE ASSOCIATION OF AMERICA VOLUME 92 NUMBER 1 JANUARY 1977**,1977 *National Union Catalog* ,1978 Includes entries for maps and atlases Comprehensive Dissertation Index ,1984 Vols for 1973 include the following subject areas Biological sciences Agriculture Chemistry Environmental sciences Health sciences Engineering Mathematics and statistics Earth sciences Physics Education Psychology Sociology Anthropology History Law political science Business economics Geography regional planning Language literature Fine arts Library information science Mass communications Music Philosophy and Religion **La Rochefoucauld and the Seventeenth-century Concept of the Self** Vivien Thweatt,1980 **Bibliography of French Seventeenth Century Studies** Modern Language Association of America. Koppisch,1981 **French Prose and Criticism Through 1789** Harold Bloom,1990 This series is part of an attempt to present a comprehensive selection of modern criticism of Western literature Each volume contains an introductory essay by Harold Bloom The Classical Model Harriet Amy Stone,1996 Literature has its own strategies for ordering information In this elegant and insightful book about the formation of knowledge in seventeenth century France Harriet Stone asks what those strategies conveyed about the limits of science and about the cultural environment of the period A propensity for reason and control pervaded literature as well as science allowing classical literature to serve as a unique laboratory for exploring the model of representation developed by science Literary texts have influenced the establishment and transformation of the paradigms grounding knowledge by drawing attention to meanings that the paradigms fail to name Stone identifies not only the momentous achievement of the discovery of the scientific method but also the more subtle

process of experimentation in literature through which ideas were continually tested and redefined She offers close readings of works by Rotrou Corneille Racine Moliere La Rochefoucauld and Lafayette as well as by Descartes Furetiere and Pascal Her first and last chapters frame the literary texts within a discussion of Foucault s analysis of classical science Classical writers began to encode their own world Once they did not only science but literature became an authority for mapping knowledge Notwithstanding the classical period s efforts to affirm the unity of knowledge Stone concludes that knowledge was never complete or certain Literature s capacity to rework the model through which it assigns meanings proves essential to unfolding both the art and the science of representation
