Lavender, Birgitte Tufte, Dafna Lemish, 2003 Over the last decades Media Education has gradually obtained an educational
status in many countries throughout the world although few countries have actually incorporated this subject in their formal

multidisciplinary approach This book sets out to explore this new approach to the subject via chapters that are representative
of ongoing work by leading Media Education researchers in nine different countries and from all five continents Media
Education is continually evolving and the individual chapters indicate that the passion for the subject is global while the
actual translations of practices and policies are very much local The book expands the debate about Media Education beyond
