Naiti Iazyk Epokh

Brian James Baer, Natalia Olshanskaya

Naiti Iazyk Epokh:

Russian Writers on Translation Brian James Baer, Natalia Olshanskaya, 2014-07-16 Since the early eighteenth century following Peter the Great's policy of forced westernization translation in Russia has been a very visible and much discussed practice Generally perceived as an important service to the state and the nation translation was also viewed as a high art leading many Russian poets and writers to engage in literary translation in a serious and sustained manner As a result translations were generally regarded as an integral part of an author's oeuvre and of Russian literature as a whole This volume brings together Russian writings on translation from the mid 18th century until today and presents them in chronological order providing valuable insights into the theory and practice of translation in Russia Authored by some of Russia's leading writers such as Aleksandr Pushkin Fedor Dostoevskii Lev Tolstoi Maksim Gorkii and Anna Akhmatova many of these texts are translated into English for the first time They are accompanied by extensive annotation and biographical sketches of the authors and reveal Russian translation discourse to be a sophisticated and often politicized exploration of Russian national identity as well as the nature of the modern subject Russian Writers on Translation fills a persistent gap in the literature on alternative translation traditions highlighting the vibrant and intense culture of translation on Europe's periphery Viewed in a broad cultural context the selected texts reflect a nuanced understanding of the Russian response to world literature and highlight the attempts of Russian writers to promote Russia as an all inclusive cultural model
