Napoleon's Dragoons and Lancers Paul L Dawson, 2025-04-28 Having their origins in the Army of Louis XIV the dragoons were originally mounted infantry During the wars of the 1e Empire they became jacks of all trade equally capable as fighting as battle cavalry scouting or operating as infantry Yet precious few studies have been made of the dress of these thirty regiments or of the ten regiments of lancers which evolved from the dragoons in 1811 The dress and equipment of each regiment of dragoons and lancers in Napoleon s army is analysed and portrayed here with greater accuracy than previously possible This is because renowned Napoleonic author Paul Dawson has been granted access to over 1 000 archive boxes found in the Service Historique de l Arm e de Terre in Paris and the Archives Nationales These have enabled the author to assesses how the wide ranging 1806 uniform regulations and the more famous Bardin regulations were adopted in practice This vast resource as yet untapped by the majority of researchers and historians for understanding the Napoleonic era in general provides detail never before revealed to the general public This is possible because every year a regiment would be inspected and the condition of the uniforms assessed A return of all the clothing to be disposed of was made and the appropriate number of new items ordered Items of clothing and equipment needing repair was also recorded as was how many items had been repaired since the last inspection Upon joining a regiment the recruit was given his first full set of clothing and equipment which came from stoppages in his pay Each item of clothing had a specified life If the items needed repair or replacement inside the prescribed period due to misuse the cost was borne by the soldier All of this was recorded There was an annual quota of money available to a colonel to pay for clothing renewals and repairs for his regiment In addition the regimental Council of Administration drew funds to buy raw materials equipment and headdresses These funds also covered sundry items such as the epaulettes of the adjutant sous officiers lace for rank stripes service chevrons musicians and drummers lace plumes and pompoms such is the remarkable level of detail these records contain These invaluable sources provide bias free empirical data from which we can reconstruct the life story of a regiment its officers and above all its clothing In addition to the official records the author has constructed how the regiments were dressed from diaries letters and even cases of fraud As well as providing the recorded details this book shows in scores of beautiful illustrations exactly how each regiment appeared These images include period paintings as well as works specifically commissioned for this book plus unique photographs of existing items of uniform Now for the first time since the days of Napoleon we can say exactly what was worn by Napoleon s cavalry

Napoleon's Dragoons and Lancers Emir Bukhari, 1992-03-26 France was to call up a total of 1 600 000 men during the Napoleonic Wars of whom a mere 600 000 were to survive For those conscripted into service one of the better fates would be recruitment as a cavalryman Napoleon s dragoons were not just any band of individuals sorted and labelled cavalrymen they were mounted infantrymen trained to be adept with both musket and sabre and proud of that distinction Originally mounted for the sake of mobility but generally

fighting on foot they evolved into an army equally at home sabring at the charge as firing dismounted *NAPOLÉON'S DRAGOONS AND LANCERS* PAUL L. DAWSON, 2025 [Napoleon's Dragoons and Lancers](#) Paul L Dawson, 2025-04-28

bravery in at least two campaigns The following year they were named Dragons de l'Impératrice in a unique compliment to the Empress Josephine As a ceremonial regiment it enjoyed many privileges but it also saw combat on a number of occasions including the battles of Essling and Wagram 1809 the Russian campaign 1812 when it suffered severe losses at Bautzen Wachau and Leipzig 1813 in the 1814 Campaign of France and at Ligny and Waterloo 1815 Lavishly illustrated and based on a wealth of archival sources this study by noted authority Ronald Pawly celebrates the colourful history and appearance of this regiment

Napoleon's Gods: Grenadiers à Cheval de la Garde 1796-1815. Paul Lindsay Dawson, 2010-12-31 The Grenadiers à Cheval of the Imperial Guard were the shock troops of the guard who were committed in battle as a final reserve at a crucial moment to turn the tide to victory for the French Charging at Marengo where they were badly bloodied by the Austrians in their first battle they again charged decisively at Austerlitz and Eylau and bore the brunt of the fighting from 1813 when they were expanded to two regiments Of the regiments of the Guard the Grenadiers à Cheval has not been widely studied or been the subject of in depth research The book brings together much of what is known about the Grenadiers from the regiments archive held in France and contemporary iconography to chart in detail the regiments history and uniform in minute detail Using primary archival material held in France this work presents the first in depth study on this well known but little researched regiment
