**Learning Yoga** Garry Appel, 2017-12-08 Learning Yoga is a completely unique beginner's guide. Through his stunningly simple approach, Garry Appel takes the student on a journey that leads to deep understanding of yoga poses based on three easily mastered factors: the basic shape of the student's body in the pose (straight, hinged at the hips, or curved); how the body is oriented in space (upright, inverted, face up, face down, or on the side); and how the arms, legs, torso, and neck are positioned. Mastery of these simple factors leads to a clear understanding of all yoga poses in no time. Each section of the book is accompanied by thorough and well-thought-out Practices that allow the reader to internalize the concepts instead of just reading about them. Only after the three components of yoga poses are revealed and practiced does the book give the poses names and show the reader how to perform them. This is an indispensable guide if you want to learn yoga.

**Yoga step by step** Marco Antonio Márquez Rosique, 2015-09-30 In our rushed and stressed lifestyle, apart from nature, we sometimes have trouble finding the time to balance our body. This can lead us to suffer stress, exhaustion, and imbalance over time; they result in multiple diseases ranging from a mild cold to more serious ones, such as high blood pressure, diabetes, or cancer. Through a pleasant reading, you will get to know various options for improving your health through physical activation, yoga, and a change in your diet. In a simple style and yet scientifically based, it is explained why it is important to have enough rest and keep the body in balance and how to improve systems such as nervous and endocrine to achieve that objective. The chapters on calisthenics, gymnastics, and asanas form a complete guide for those who want to start these disciplines. The book explains in detail the most important aspects, such as the proper execution, benefits, and contraindications. In your hands, you have an invaluable resource for improving your health holistically, considering integrally the planes: physical, emotional, mental, and spiritual.

*A Teacher's Guide for Beginning Yoga* Vijayendra Pratap, 1987

**The Manual of Yoga Anatomy** Sally Parkes, 2017-09 The manual of yoga anatomy is the essential introduction to the anatomy of 30 key yoga asana or poses. This approachable but detailed guide explains what happens in your body on an anatomical level during the practice of yoga. Beginning with a clear breakdown of the musculoskeletal system and an introduction to yoga itself, the book then examines 30 key asana in detail. For each featured asana, there is easy-to-follow step-by-step advice on how to achieve the proper posture safely, with options for practical modifications to allow for individual ability and injury. There is also in-depth analysis of each pose with notes on the type of muscle activation, plane of movement, and axis of the spine. Stunning full-colour illustrations show the musculature at work, allowing you to visualise what is happening in different parts of your body during each pose and increasing your awareness of anatomy. This is a must-have book for all serious yoga students, trainee yoga teachers, and all those with an interest in how the body works during movement.
