Nagara And Commandery:

Nagara and Commandery: Origins of the Southeastern Asian Urban Traditions, by P. Wheatley. [Research Papers, No.207- 208]. P. Wheatley,1983 *Pelagic Passageways* Rila Mukherjee,2011 Due to the frontierization of nation states maritime historians have tended to ignore the northern Bay of Bengal Yet this marginal region now dispersed over the four nation states of India China Myanmar and Bangladesh was not marginal in the past Until recently however historians have concentrated largely on the big four the Gujarat Malabar Coromandel and western Bengal coasts Extreme eastern South Asia Bengal and the lands to its north east fanning into Burma and China or modern India s north east and beyond is the focus of Pelagic Passageways This regional unit including diverse topographic features plains forests estuaries deltas rivers mountains lakes plateaus and remote passes oscillates between unity and fragmentation between centrality and marginality in the larger space of the Bay of Bengal To attempt a history of this space is indeed challenging There is not one but two deltas here the western delta corresponding to present West Bengal in India and centred now on Kolkata and the south eastern delta in present Bangladesh centred on Dhaka and running into Arakan Not merely in terms of location but on a historical axis too the two deltas are vastly different as they have followed disparate trajectories dictated in part by their geographies Pelagic Passageways therefore questions the conventional fault line located on the south eastern Bengal delta between the historiography of South and South East Asia Concentrating on commodity and currency flows travel trade routes and interactive networks Pelagic Passageways visualizes the cultural space of the northern Bay of Bengal as embracing upland landlocked areas Ava Yunnan the Tripuri Dimasa and Ahom states not usually seen as part of maritime history This collection of essays suggests that they too were a part of the social and commercial networks of the Indian Ocean While these countries literally fell off the map this volume proposes that we see these areas instead as crossroads mediating flows between the land dwelling and aquatic worlds **The Brush and the Spur** Robert Joe Cutter,1989 **Money, Markets, and Trade in Early Southeast Asia** Robert S. Wicks,2018-05-31 This substantial work explores the impact of monetization in premodern Southeast Asia from the third century BCE to the rise of Maleka in the early fifteenth century The author explores why concepts of money developed unevenly throughout the region He considers trade policies price controls exchange ratios monopolies variant standards of value and the administrative structures required to support such a complex economic innovation **The Dvāravati Wheels of the Law and the Indianization of South East Asia** Robert L. Brown,2023-12-28 This volume deals with a unique group of stone sculptures representations of the Buddha s Wheel of the Law found in present day Thailand that date from about the seventh eighth centuries CE The book places these sculptures in their historical religious and art historical contexts to determine what they meant to the culture called Dv ravat that produced them Thus other art historical material associated with the Wheels including stone deer Buddha images and stupas are discussed Of greatest importance is how these sculptures relate to both the art in Cambodia and that in India and to

determine what these relationships can tell us about the process called Indianization by which Indian culture religion and art were adapted in Southeast Asia The Emporium of the World Angela Schottenhammer,2001 This volume by offering a score of new insights derived from a wide variety of recent archaeological and textual sources bring to life an important overseas trading port in Southeast Asia Quanzhou During the Song and Yuan dynasties active official and unofficial engagement in trade had formative effects on the development of the maritime trade of Quanzhou and its social and economic position both regionally and supraregionally In the first part subjects such as the impact of the Song imperial clan and the local elites on these developments the economic importance of metals coins paper money and changes in the political economy are amply discussed The second part concentrates on the quantitative and qualitative analysis of archaeological data and materials the investigation of commodities from China their origins distribution and final destinations the use of foreign labour and the particular role of South Thailand in trade connections thus supplying the hard data underlying the main argument of the book *The Cultural History of Lower Kṛṣṇa Valley* Dr. A.
