**Studies of White Whales (*Delphinapterus leucas*) and Narwhals (*Monodon monoceros*) in Greenland and Adjacent Waters**, 1994     The Last Lands Christopher Pearce, 2020-12-27 In the future global warming has all but destroyed the earth Now the last of the remaining human population and wildlife seek inhabitable land In this shrinking world they all have to fight for the right to live Earth is divided literally into polar opposites more technologically advanced humans in Antarctica and the wild ones living face to face with nature in the Arctic The people of Antarctica call themselves the Antar while the Arctic contingent is called the Narrs The Narrs and the Antar know nothing of each other until now Seismic activity and volcanoes are destroying what is left of the earth but some lands are still able to support life These are the Last Lands sought by all remaining humanity in order to survive However both the Narrs and Antar will soon learn a terrible lesson we cannot destroy the world we can only destroy ourselves     **To See a Narwhal** Michael
