**Ronald Lewin**

## **Man Of Armour Vyvyan Pope:**

Man of Armour Ronald Lewin, 1976 Biografi om den britiske general Vyvyan Pope som var een af de fremmeste personligheder indenfor udviklingen og brugen af det britiske panservæsen før og under 2 verdenskrig Omkom ved et flystyrt i Nordafrika allerede i 1941 **British Armoured Divisions and Their Commanders, 1939-1945** Richard

Doherty, 2013-07-16 A total of eleven British armoured divisions were formed during the 1939-1945 war but as this highly informative book reveals just eight saw action In 1940 only 1st Armoured Division faced the German blitzkrieg and it was in the North African desert that armoured divisions came into their own The terrain was ideal and six such divisions of Eighth Army fought Rommel's Panzers into submission Three were disbanded prior to the invasion of Sicily and Italy The campaign from D Day onwards saw the Guards Armoured 7th Armoured the Desert Rats 11th and Percy Hobart's 79th Armoured Division in the thick of the action Of particular interest are the men who commanded these elite formations and the way their characters contributed to the outcome of operations While some such as Dick McCreery went onto greater heights others did not make the grade the stakes were high A number such as Pip Roberts were just perfectly suited in the role Written by a leading military historian this book describes many fascinating aspects of armoured warfare from its uncertain beginnings through the development of tactics and the evolving tank design Due to British deficiencies reliance had to be placed on US Grants and Shermans with the Comet coming late and the Centurion too late The combination of gripping historical narrative and well researched fact make this an invaluable and highly readable work on the contribution of British Armoured Divisions to victory in the Second World War **Men, Ideas, and Tanks** J. P. Harris, 1995 Men ideas and tanks reviews the

development of British military ideas on armoured forces from 1903 to 1939 Great Britain was the nation which first developed the tank first used it in action and first gained dramatic results by employment The British continued to be world leaders in the field of mechanised warfare until the early 1930s J P Harris offers strikingly new interpretations of the early history of British armoured forces and explains why Great Britain had lost the lead by the outbreak of the Second World War Available in paperback once more this work will be of interest to all those concerned with British military history in the first half of the twentieth century with the history of mechanised warfare and with the history of military thought *Collision of Empires* G. Bruce Strang, 2016-05-23 Italy's invasion of Ethiopia in 1935 marked a turning point in interwar Europe The last great European colonial conquest in Africa the conflict represented an enormous gamble for the Fascist dictator Benito Mussolini He faced a challenge not only from a stout Ethiopian defence but also from difficult logistics made worse by the League of Nations half hearted sanctions Mussolini faced down this opposition and Italian troops aided by air superiority and liberal use of yprite gas conquered Addis Ababa within eight months a victory that shocked many military observers of the time with its speed and suddenness The invasion had enormous repercussions on European international relations In the midst of a national election campaign the British National Government had felt constrained to support the League despite

fears that sanctions through the League could lead to war with Italy The concentration of the Royal Navy in the Mediterranean Sea alienated Mussolini and placed the French government on the horns of dilemma should France support its military partner Italy or its more important potential ally Great Britain French attempts to mark out a middle ground did little to placate the Duce and the crisis seemed to develop a deep rift between Fascist Italy and the Anglo French democracies while at the same time creating a crisis in Anglo French relations Mussolini turned towards Nazi Germany in an attempt to end his diplomatic isolation during the sanctions episode although Hitler considered the Duce s friendship a mixed blessing The question of American adherence to sanctions increased ill will between British politicians and the Roosevelt administration in Washington as each tended to blame the other for the failure of oil sanctions and the collapse of collective security The international crisis posed similarly thorny problems for the smaller powers of Europe and for Japan and the Soviet Union The crisis impeded common defence against Fascist expansionism while giving impetus to claims of the revisionist powers Despite the tremendous importance of the international crisis however little new work on the subject has appeared in recent decades In this volume an international cast of contributors take a fresh look at the crisis through the lens of new evidence and new approaches to international relations history to provide the most comprehensive coverage of the crisis currently possible and their work provides new frames of reference for exploring imperialism collective security and genocide

British Armour in the Normandy Campaign John Buckley, 2004-07-22 This book is an innovative study of the Normandy campaign and the perceived failure of British forces there It is essential reading for all students of military history and general readers with an interest in the subject

**British Tank Production and the War Economy, 1934-1945** Benjamin Coombs, 2013-09-26 British Tank Production and the War Economy 1934 1945 explores the under researched experiences of the British tank industry in the context of the pressures of war Benjamin Coombs explores the various demands placed on British industry during the Second World War looking at the political military and strategy pressures involved By comparing the British tank programme with the Canadian American Russian and Australian equivalents this study offers an international perspective on this aspect of the war economy Topics covered include the premature contraction of the tank programme and dependence on American armour the supply of the Valentine tank to the Russian authorities and the ongoing employment of the tank in the postwar peacetime markets
