T E Claassen & S Verwey

This article provides an overview of the dynamics of change in the external environment and the impact it has on the public relations function. A brief discussion regarding standard setting as envisaged by the National Qualifications Framework (NQF) and the professionalisation of public relations, with specific reference to training needs and accreditation, is included. The article also attempts to provide insight into the empirical process that led to the development of a generic framework and the hierarchical classification of outputs according to levels of work.

The re-introduction of South Africa into the international markets not only gave South African businesses the opportunity to expand their
