found that only about 2 800 farmers used Primextra Gold in 2021 Gallant Super was also estimated to have been adopted by over 23 000 in 2023 Vigor adopted by over 5 000 farmers in 2023 and SlashaGold by about 4 500 cassava farmers While these estimates are based on the best available data from the companies it is important to exercise caution in citing these figures due to the lack of precise records of sales of specific herbicides to cassava farmers Human Interface and the Management of Information Sakae Yamamoto,2013-07-01 The three volume set LNCS 8016 8017 and 8018 constitutes the refereed proceedings of the 15th International Conference on Human Computer Interaction HCII 2013 held in Las Vegas NV USA in July 2013 The total of 1666 papers and 303 posters presented at the HCII 2013 conferences was carefully reviewed and selected from 5210 submissions These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems The papers accepted for presentation thoroughly cover the entire field of human computer Interaction addressing major advances in knowledge and effective use of computers in a variety of application areas This volume contains papers in the thematic area of human interface and the management of Information addressing the following major topics learning education and skills transfer art and cultural heritage collaborative work business integration and decision support Industrial Management ,1921 Notes on cage birds: or, Practical hints on the management of British and foreign cage birds, hybrids, and canaries, by various hands, ed. by W.T.
