Every education professional knows how demanding these new methods can be but they can also reinforce a sense of purpose and control. Senior Management Teams in Primary Schools looks at how positive teamwork can be achieved within your school and illustrates the benefits it brings. Most teachers involved in managing their school will recognise the situations detailed in the case studies contained in the book. You will find practical advice, clear guidelines, case studies from schools that are involved in the process of good practice. The Role of School Management Teams in Managing

Educational Changes in Secondary Schools Mbobvu Johanna Marupeni, University of Venda. School of Education.

Department of Curriculum Studies and Education Management, 2008. *Inside the SMT* Mike Wallace, Valerie Hall, 1994. There is a senior management team (SMT) in almost every secondary school but what do these team members actually do? This is the first book to reveal their inside story. It reports on research into six SMTs, two of which the authors observed over a full year. A new cultural and political perspective is used to explore how team members worked together and related to other staff and governors. Teamwork is shown to be a high gain, high strain approach; it offers the potential for effective management especially in coping with multiple reforms but it is difficult to bring off. Some problems are linked with a tension between the different status of members within the school management hierarchy and their right to make an equal contribution to the work of the team. The authors put forward a series of hypotheses about SMT effectiveness which may be used as a starting point for team improvement efforts. This stimulating and carefully argued account is essential reading for all who are interested in the contribution of senior staff in schools, headteachers, teachers, governors, trainers and providers of
