David M. Barrett, 2005 Selected bibliography p 511 519 **Conflict in Asia** Uk Heo, Shale A. Horowitz, 2003-04-30 Much of the world reaped a peace dividend with the end of the Cold War yet Asia has seen little reduction in tensions and military spending Three Cold War era conflicts those dividing China and Taiwan North and South Korea and India and Pakistan remain unresolved Other regional powers as well as the United States continue to be concerned about these volatile disputes North Korea's nuclear and long range missile development China's opposition to Taiwan's pursuit of independence and Pakistan's longstanding dispute with India have all received increasing media attention This is the first volume using a common approach to examine post Cold War changes in these three volatile dyads The book's case studies detail the evolution of each country's security policy and its shifting mix of alliances The authors analyze U S interests and discuss how U S intervention affects strategic calculations of the conflicted states This mechanism allows gives the readers a truer understanding of the conflicts and how they interact within the Asian security system in general Each of the dominant theoretical frameworks of international relations neo realism neo liberalism and constructivism offer crucial insights into this complicated situation Perilous Partners Ted Galen Carpenter, Malou Innocent, 2015-09-22 American leaders have cooperated with regimes around the world that are to varying degrees repressive or corrupt Such cooperation is said to serve the national interest But these partnerships also contravene the nation's commitments to democratic governance civil liberties and free markets During the Cold War policymakers were casual about sacrificing important values for less than compelling strategic rationales Since the 9 11 attacks similar ethical compromises have taken place although policymakers now seem more selective than their Cold War era counterparts Americans want a foreign policy that pursues national interests while observing American values How might that reconciliation of interest and morality be accomplished In Perilous Partners authors Ted Galen Carpenter and Malou Innocent provide a strategy for resolving the ethical dilemmas between interests and values faced by Washington They propose maintaining an arm's length relationship with authoritarian regimes emphasizing that the United States must not operate internationally in ways that routinely pollute American values It is a strategy based on ethical pragmatism which is the best way to reconcile America's strategic interests and its fundamental values Perilous Partners creates a strategy for conducting an effective U S foreign policy without betraying fundamental American values **The Cold War U.S. Army** Ingo Trauschweizer, 2008 Focuses on the Seventh Army in West Germany the largest and best prepared field army ever deployed by the U S in peacetime to show how the U S army redefined its identity structure and mission in order to avoid obsolescence during the Cold War era of nuclear weapons and air power
