Manila, nineteen hundred - 1941 Manila, 1900-1941 Daniel F. Doeppers, 1984 **The Economies of Africa and Asia in the Inter-war Depression (Routledge Revivals)** Ian Brown, 2014-11-13 The great inter war depression has long been seen as an unprecedented economic disaster for the peoples of the non European world This book with its detailed assessment of the impact of the depression on the economies of Africa and Asia challenges the orthodox view and is essential reading for those with a teaching or research interest in the modern economic history of those continents Established specialists in the modern economic history of parts of Africa or Asia put forward a number of revisionist arguments They show that some economies were left essentially unscathed by the depression and that for many export dependent peasant communities which did face a severe drop in cash income as world commodity prices collapsed from the late 1920s there was a range of important responses and reactions by which they could defend their economic welfare For many peasant communities the depression was not a disaster but an opportunity **The Cambridge History of Southeast Asia: Volume 2, The Nineteenth and Twentieth Centuries** Nicholas Tarling, 1992 Southeast Asia has long been seen as a unity although other terms have been used to describe it Further India Little China the Nanyang The region has had a protracted maritime history Confucianism Buddhism Islam Hinduism Christianity are all represented It has seen a quintet of colonial powers Britain France The Netherlands Spain the United States Most recently it has become one of the fastest growing parts of the world economy The very term Southeast Asia is clearly more than a geographical expression The Cambridge History of Southeast Asia is a multi authored treatment of the whole of mainland and island Southeast Asia from Burma to Indonesia Unlike other histories of the region it is not divided on a country by country basis and is not structured purely chronologically but rather takes a thematic and regional approach to Southeast Asia s history This volume the second and final in the series takes us into the nineteenth and twentieth centuries from the late eighteenth century of the Christian era when most of the region was incorporated into European empires to the complexity and dramatic change of the post World War II period It covers the economic and social life as well as the religious and popular culture of the region as they develop over two centuries The political structures of the region are also closely examined from the insurgencies and rebellions of early this century to the modern Nationalist movements which challenged the control of the colonial powers and led to the formation of independent states Under the editorship of Nicholas Tarling Professor of History at the University of Auckland New Zealand each chapter is well integrated into the whole Professor Tarling has assembled a highly respected team of international scholars who have presented the latest historical research on the region and succeeded in producing a provocative and exciting account of the region s history **Routledge Handbook of Southeast Asian Economics** Ian Coxhead, 2014-12-17

The Routledge Handbook of Southeast Asian Economics offers new insights into the rapidly developing economies of Southeast Asia. Despite widespread initial deprivation, Southeast Asia has achieved and sustained a remarkable rate of growth in the course of which tens of millions have successfully escaped severe poverty. Though the economies of the region vary in many dimensions, integration into the wider East Asian network of production and trade is a notable common feature, one that continues a centuries-long history of engagement with global trade. A second striking feature is the pace and extent of transformation in the structure of production and in sources of household income in the region, which has undergone remarkably rapid industrialization and urban growth. However, the search for sustained and sustainable growth through and beyond middle income continues to confront pressing economic and policy challenges. This Handbook offers a timely and comprehensive overview of Southeast Asian economic development. Organized according to the logic of chronological and thematic unity, it is structured in these sections: Growth and development over the long term; Food, agriculture and natural resources; Trade, investment and industrialization; Population, labor and human capital; Poverty and political economy; Twenty-first century challenges. This original Handbook, written by experts in their fields, is unique in the breadth and depth of its coverage. Its forward-looking perspective renders it relevant both now and in the future. This advanced-level reference work will be essential reading for students, researchers and scholars of Asian Studies, Economics and Southeast Asian studies.

The Chinese in the Philippine Economy, 1898-1941 Kwok-Chu Wong, 1999. A pioneering analysis of the business history of the Chinese in a Southeast Asian country. This book critically examines the essential elements of the entrepreneurial roles of the Philippine Chinese in the local economy in 1898-1941 and analyzes their business achievements and limitations at both the community and individual levels. **Environment & Planning**, 1999. **Rickshaw Coolie** James Francis Warren, 2003. Between 1880 and 1930, colonial Singapore attracted tens of thousands of Chinese immigrant laborers brought to serve its rapidly growing economy. This book chronicles the vast movement of coolies between China and the Nanyang and their efforts to survive in colonial Singapore. Focusing in on one particular occupation of rickshaw coolie, this study unveils the devastating poverty of the Chinese sojourner in the colonial city, the disjunctions between colonial order and the reality of life on the streets. Drawing on a broad range of sources, including Coroner's records overlooked for many years, and making use of the technique of collective biography, this book brings to life the texture of experience, the ironies and often the despair of the laborers of urban Singapore. In the years since its original publication in 1986, *Rickshaw Coolie* has become an inspiration to those seeking to come to grips with Singapore's past. *Southeast Asian Journal of Social Science*, 1999. Urban Geography, 1986. **The Philippines Under Japan** Setsuho Ikehata, Ricardo Trota Jose, 1999. Although much has been written on the Japanese occupation of the Philippines, one aspect of that period has remained uncovered: the Japanese point of

view This book written by Japanese scholars and a Filipino attempts to provide that point of view presenting new perspectives of the Occupation based on Japanese and other hitherto unused primary sources **Defending a Place in the City** Erhard Berner,1997 Predatory competition in the land market the government s inability to provide housing for the urban poor and the migration of thousands from the countryside have led to the growth of large squatter colonies in Metro Manila Defending a Place emphatically maintains that in this context squatting is a solution rather than a problem It details the struggle of the urban landless to secure a place in a city that has become an arena of global players and forces
