Managing the Welfare State Tony Cutler,Barbara Waine,1997-01-01 A comprehensive account of the major changes which have occurred in British public sector management over the last decade Relates these changes to the international arena particularly in the European community and the United States Und **Managing the Welfare State** Antony Cutler,1997 Questioning the New Public Management John Chandler,2017-09-08 The book contains a wealth of detailed and fascinating case studies of New Public Management NPM in practice in the UK exploring the enactment of NPM in its specific organizational contexts A range of public services are covered including local government education social work and the police with particular attention paid to the National Health Service The editors introduce the case studies through an examination of the hydra headed nature of NPM its variability between sectors and its contested character This provides themes that are developed within the case studies where in varying organizational contexts the meaning of NPM is negotiated and its impact on those working in the organization is explored The book points to the complex fluid and negotiated character of NPM as well as its centrality in reconfiguring occupational identities and relations within public service organizations Employment and Citizenship in Britain and France John Edwards,Jean-Paul Revauger,2018-02-06 This title was first published in 2000 One of the most significant features to emerge in the world of work during the past decade has been the change from long term employment often with one employer to a pattern of short term flexible working arrangements involving short term contracts frequent spells of unemployment rapid movement into and out of employment and greater labour mobility This text examines the social and economic consequences of this employment flexibility The book derives from the 2nd Anglo French Conference on the Transferability of Social Policy held in 1998 which focused on the problems created by employment flexibility and the appropriate policy responses it also presents commentaries on the consequences of flexibility in Britain and France It brings together British and French perspectives on such policy questions as the impact on families and their ability to plan in an atmosphere of economic insecurity the manner in which French and British welfare systems are adapting the impact on citizens rights the need in both countries to make pension arrangements more adaptable and the potential for a European citizenship approach to the problem Education Policy and Social Reproduction John Fitz,Brian Davies,John Evans,2005-11-16 This book takes a theoretically informed look at British education policy over the last sixty years when secondary schooling for all children became an established fact for the first time Comprehensive schools largely replaced a system based on academic selection Now under choice and competition policies all schools are subject to the rigours of local education markets What impact did each of these successive policy frameworks have on structures of opportunities for families and their children How and to what extent was the experience of secondary school students shaped and what influenced the qualifications they obtained and their life chances after schooling The authors locate their work within two broad strands in the sociology of education Basil Bernstein s work on the realisation

of power and control in and through pedagogic discourse and social reproduction provides a theoretical framework for exploring the character of and continuities and change in education and training policies The book is an important contribution to debates about the extent to which education is a force for change in class divided societies The authors also set out to re establish social class at the centre of educational analysis at a time when emphasis has been on identity and identity formation arguing for their interdependence This book will be an important resource for students policy analysts and policymakers wishing to think through and understand the longer term impact of programmes that have shaped secondary schooling in Britain and elsewhere
