You'll develop the skills to: Define projects, Accelerate project development, Obtain sponsorship, Act as a consultant, Plan infrastructures, Create work breakdown structures, Identify dependency relationships, Manage resources, and optimize the plans. Analyze risks and plan for contingencies, Estimate schedules, and more. Learn what needs to be done after you finish a project to ensure success. Don't just squeak by with mediocre management. Mediocre management can stifle the development of great ideas. Ideas will get projects started. But you won't achieve superior results without effective management.
