Managing Production Engineering Change And Stability:

Managing Production Graham Winch, 1994 The management of production is faced with ever greater challenges as global competition mounts. The problems revolve around the paradox of flexibility and productivity in the organization of production how to compete on price while retaining the capability to respond quickly to market changes how to develop new products faster without jeopardizing product integrity how to increase quality while reducing costs. The recent research on lean production has explored some of these questions in the context of the motor industry. This book takes a broader audit of these issues across the full range of the metalworking sector in the United Kingdom. Focusing on the engineering manufacturing interface the research presented here explores how 15 leading British firms are facing up to the challenges of the 90s.

Managing Production Graham Winch, 1994 Explores how 15 of Britain's engineering firms are facing up to the challenges of the 1990s global competition lean production and giving the customer value for money and draws some lessons for the future.

Commercial Management of Projects David Lowe, Roine Leiringer, 2008-04-15 This is the first book to establish a theoretical framework for commercial management. It argues that managing the contractual and commercial issues of projects from project inception to completion is vital in linking operations at the project level and the multiple projects portfolios programmes level to the corporate core of a company. The book focuses on commercial management within the context of project oriented organisations for example aerospace construction IT pharmaceutical and telecommunications in the private and public sectors. By bringing together contributions from leading researchers and practitioners in commercial management it presents the state of the art in commercial management covering both current research and best practice. Commercial Management of Projects defining the discipline covers the external milieu competition culture procurement systems the corporate milieu corporate governance strategy marketing trust outsourcing the projects milieu management of uncertainty conflict management and dispute resolution performance measurement value management and the project milieu project governance contract management bidding purchasing logistics and supply cost value reconciliation.
