

## League of Nations Mandates in Africa

# Mandates And Empire The League Of Nations And Africa 19141931

**Anna M. Wittmann**

## **Mandates And Empire The League Of Nations And Africa 19141931:**

*Mandates and Empire* Michael D Callahan, 2008-04-10 Compares the impact of the League of Nations mandates system on British and French rule in African mandated territories      *Sovereignty, International Law, and the Princely States of Colonial South Asia* Priyasha Saksena, 2023 Sovereignty International Law and the Princely States of Colonial South Asia examines the role the doctrine of sovereignty played in debates over the legal status of the princely states of colonial South Asia illustrating how different interpretations have shaped current understandings of international law and the modern Indian nation state      **The Routledge Handbook of the History of the Middle East Mandates** Cyrus Schayegh, Andrew Arsan, 2015-06-05 The Routledge Handbook of the History of the Middle East Mandates provides an overview of the social political economic and cultural histories of the Middle East in the decades between the end of the First World War and the late 1940s when Britain and France abandoned their Mandates It also situates the history of the Mandates in their wider imperial international and global contexts incorporating them into broader narratives of the interwar decades In 27 thematically organised chapters the volume looks at various aspects of the Mandates such as The impact of the First World War and the development of a new state system The impact of the League of Nations and international governance Differing historical perspectives on the impact of the Mandates system Techniques and practices of government The political social economic and cultural experiences of the people living in and connected to the Mandates This book provides the reader with a guide to both the history of the Middle East Mandates and their complex relation with the broader structures of imperial and international life It will be a valuable resource for all scholars of this period of Middle Eastern and world history

*Empires at War* Robert Gerwarth, Erez Manela, 2014-07-03 Empires at War 1911 1923 offers a new perspective on the history of the Great War It expands the story of the war both in time and space to include the violent conflicts that preceded and followed the First World War from the 1911 Italian invasion of Libya to the massive violence that followed the collapse of the Ottoman Russian and Austrian empires until 1923 It also presents the war as a global war of empires rather than a European war between nation states This volume tells the story of the millions of imperial subjects called upon to defend their imperial governments interest the theatres of war that lay far beyond Europe and the wartime roles and experiences of innumerable peoples from outside the European continent Empires at War covers the broad global mobilizations that saw African soldiers and Chinese labourers in the trenches of the Western Front Indian troops in Jerusalem and the Japanese military occupying Chinese territory Finally the volume shows how the war set the stage for the collapse not only of specific empires but of the imperial world order writ large      **A Civilised Savagery** Kevin Grant, 2014-02-04 In the two decades before World War One Great Britain witnessed the largest revival of anti slavery protest since the legendary age of emancipation in the mid nineteenth century Rather than campaigning against the trans Atlantic slave trade these latter day abolitionists focused on the so called new slaveries of European imperialism in Africa condemning coercive systems of labor

taxation and indentured servitude as well as evidence of atrocities A Civilized Savagery illuminates the multifaceted nature of British humanitarianism by juxtaposing campaigns against different forms of imperial labor exploitation in three separate areas the Congo Free State South Africa and Portuguese West Africa In doing so Kevin Grant points out how this new type of humanitarianism influenced the transition from Empire to international government and the advent of universal human rights in subsequent decades

**Imperialism on Trial** R. M. Douglas, Michael Dennis Callahan, Elizabeth Bishop, 2006-01-01  
Imperialism on Trial reveals across a broad cross section of geographical and political settings the operation of the complicated and often conflicted dynamic between the national and international dimensions of colonialism in its final and most historically consequential phase

**The 'Civilising Mission' of Portuguese Colonialism, 1870-1930** Miguel

Bandeira Jerónimo, 2015-01-22 This book provides an historical critical analysis of the doctrine of civilising mission in Portuguese colonialism in the crucial period from 1870 to 1930 Exploring international contexts and transnational connections this civilising mission is analysed and assessed by examining the employment and distribution of African manpower

**You, the People** Simon Chesterman, 2004 The governance of post conflict territories embodies a central contradiction how does one help a population prepare for democratic governance and the rule of law by imposing a form of benevolent autocracy Transitional administrations represent the most complex operations attempted by the United Nations The operations in East Timor and Kosovo are commonly seen as unique in the history of the UN perhaps never to be repeated But they may also be seen as the latest in a series of operations that have involved the United Nations in state building activities where it has attempted to develop the institutions of government by assuming some or all of those sovereign powers on a temporary basis The circumstances that have demanded such interventions certainly will be repeated Seen in the context of earlier UN operations such as those in Namibia Cambodia and Eastern Slavonia the view that these exceptional circumstances may not recur is somewhat disingenuous Moreover the need for such policy research has been brought into sharp focus by the weighty but ambiguous role assigned to the UN in Afghanistan and the possibility of a comparable role in Iraq This book fills that gap Aimed at policy makers diplomats and a wide academic audience including international relations political science international law and war studies the book provides a concise history of UN state building operations and a treatment of the five key issues confronting such an operation on the ground peace and security the role of the UN as government judicial reconstruction economic reconstruction and exit strategies

**Talking Conflict** Anna M. Wittmann, 2016-12-05 In today's information era the use of specific words and language can serve as powerful tools that incite violence or sanitize and conceal the ugliness of war This book examines the complex twisted language of conflict Why is the term collateral damage used when military strikes kill civilians What is a catastrophic success What is the difference between a privileged and unprivileged enemy belligerent How does deterrence differ from detente What does hybrid warfare mean and how is it different from asymmetric warfare How is shell shock different from battle fatigue and

PTSD These are only a few of the questions that Talking Conflict The Loaded Language of Genocide Political Violence Terrorism and Warfare answers in its exploration of euphemisms warspeak doublespeak and propagandistic terms This handbook of alphabetically listed entries is prefaced by an introductory overview that provides background information about how language is used to obfuscate or minimize descriptions of armed conflict or genocide and presents examples of the major rhetorical devices used in this subject matter The book focuses on the loaded language of conflict with many of the entries demonstrating the function of given terms as euphemisms propaganda or circumlocutions Each entry is accompanied by a list of cross references and Further Reading suggestions that point readers to pertinent sources for further research This book is ideal for students especially those studying political science international relations and genocide as well as general readers

*The Oxford Handbook of Contextual Political Analysis* Robert E. Goodin, Charles Tilly, 2006 The Oxford Handbooks of Political Science is a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science Each volume focuses on a particular part of the discipline with volumes on Public Policy Political Theory Political Economy Contextual Political Analysis Comparative Politics International Relations Law and Politics Political Behavior Political Institutions and Political Methodology The project as a whole is under the General Editorship of Robert E Goodin with each volume being edited by a distinguished international group of specialists in their respective fields The books set out not just to report on the discipline but to shape it The series will be an indispensable point of reference for anyone working in political science and adjacent disciplines The Oxford Handbook of Contextual Political Analysis sets out to synthesize and critique for the first time those approaches to political science that offer a more fine grained qualitative analysis of the political world The work in the volume has a common aim in being sensitive to the thoughts of contextual nuances that disappear from large scale quantitative modelling or explanations based on abstract general universal laws of human behavior It shows that context matters in a great many ways philosophical context matters psychological context matters cultural and historical contexts matter place population and technology all matter By showcasing scholars who specialize in the analysis of all these contexts side by side the Oxford Handbook of Contextual Political Analysis shows how political scientists can take those crucial contextual factors systematically into account **Mandates and Empire in Africa**

Michael Dennis Callahan, 1995 **The League of Nations' Work on Social Issues** Magaly Rodriguez Garcia, 2016 This edited volume offers a fresh look into the history of the League of Nations It uses the League of Nations involvement in social issues as a unique prism for understanding the League's development as well as the development of interwar international relations more generally Off the beaten path of diplomatic history this perspective allows the authors to trace less familiar actors and unexpected alliances It enables contributors to reassess the League's impact on European societies their colonial possessions and non European states As such it also marks a paradigm shift in the League's Eurocentric historiography toward one that acknowledges its global reach *The International Journal of African Historical Studies*, 2001 **Brazil**

**on the Global Stage** Oliver Stuenkel, Matthew M. Taylor, 2015-04-15 In the past generation Brazil has risen to become the seventh largest economy and fourth largest democracy in the world Yet its rise challenges the conventional wisdom that capitalist democracies will necessarily converge to become faithful adherents of a US led global liberal order Indeed Brazil demonstrates that middle powers even those of a deeply democratic bent may differ in their views of what democracy means on the global stage and how international relations should be conducted among sovereign nations This volume explores Brazil s postures on specific aspects of foreign relations including trade foreign and environmental policy humanitarian intervention nuclear proliferation and South South relations among other topics The authors argue from a variety of perspectives that even as Brazil seeks greater integration and recognition it also brings challenges to the status quo that are emblematic of the tensions accompanying the rise to prominence of a number of middlepowers in an increasingly multipolar world system

**Proceedings of the British Academy**, 2009      **Shaping States, Subverting Frontiers: Social Conflict and Political Consolidation Among the Ewe Dukowo in the Togoland Mandates, 1919-1945** Benjamin Nicholas Lawrance, 2002      **Belgisch tijdschrift voor filologie en geschiedenis**, 2012      *Royal Historical Society Annual Bibliography of British and Irish History* Austin Gee, 2001-10-18 The Royal Historical Society s Annual Bibliography of British and Irish History provides a comprehensive and authoritative survey of books and articles published in a single calendar year It covers all periods of British and Irish history from Roman Britain to the end of the twentieth century and also includes a section on imperial and commonwealth history It is the most complete and up to date bibliography of its type and an indispensable tool for historians

**CURRENT CONTENTS January 7, 2002 Volume 24 Number 1**, 2002      No Entry Without Strategy Carolyn Gardner Bull, 2008 For international actors seeking to consolidate peace and democracy in disrupted states the importance of establishing the rule of law is now well recognized UN peace operations have struggled to ensure lasting security against violence and to build legitimate structures to redress disputes peacefully UN actors have confronted a fundamental dilemma if embedding the rule of law rests on complex political and social transformations regarding conflict power and the state can external actors make a difference The book investigates the challenges faced by UN transitional administrations in establishing the rule of law in Cambodia Kosovo and East Timor In so doing it explores conceptual understandings of the UN s state building agenda and speaks to broader questions about the role of external actors in disrupted states Publisher s description
