W. Grant, 1887 *The Numerical Structure of Scripture* Frederick William Grant, 1887 *The Numerical Structure of the Holy Bible* Charles Stockford Jr., 2016-12-22 Most Bible students are aware of the use of numbers in scripture The number 7 is a prime example with its connotations of perfection and completeness The study of numbers as used in the Bible is infrequent and the Lord's people therefore miss some of that which is profitable for correction and instruction in the Word of God This volume goes a long way toward correcting the deficiency by providing a great introduction to the subject and showing that these patterns provide proof of the completeness and inspiration of the Holy Scriptures The reader will find profit as well as inspiration from this intriguing study **The Numerical Structure of Scripture** F. Grant, 2015-07-12 Excerpt from The Numerical Bible Being a Revised Translation of the Scriptures With Expository Notes Arranged Divided and Briefly Characterized According to the Principles of Their Numerical Structure To avoid the necessity of reference to the first volume the meanings of the numerals there more fully given are appended here with some slight rectification and enlargement also such as naturally grow out of longer use and investigation The natural meaning always underlies the spiritual and this harmony is the justification of the latter showing the symbolism to be real There are but 7 to be considered really 7 being the well known number of perfection and 8 symbolizing what is new in contrast with the old simply showing that the series does end with the former Larger numbers are but in their signification compounds of the smaller ones as ten 5 X 2 twelve 4 X 3 forty 4 X 5 X 2 Those which cannot be multiplied need more inquiry to determine as scripture methods must be learned from Scripture One One always signifies unity or primacy meanings strictly natural but which may be applied variously as is evident It excludes another thus may speak of singleness singleness even of a single state barrenness So of sufficiency competency without help of other power omnipotence Or of independency standing alone whether competent or not in a creature rebellion Or unchangeableness perpetuity eternity as implied by these together these are in fact but oneness in successive time It excludes difference if altogether this is identity truth is identity of the affirmation with the fact If internal difference then we have harmony of parts or attributes consistency congruity righteousness which is moral congruity with position integrity which is wholeness oneness If external difference and in various aspects agreement concord peace the being at one All these are but in different ways the same idea fundamentally and no doubt the number of its expressions might be increased but one may stand also for its ordinal first primacy Thus in time the beginning which may be as with God causative and so speak of source cause origin paternity easily passing into the thought of supremacy sovereignty headship while in connection with
