Voltmer, Voltmer E I, 1979     **The Organization and Administration of Physical Education (Classic Reprint)** Jesse Feiring Williams, 2017-12-02 Excerpt from The Organization and Administration of Physical Education. The development of physical education in America has been desultory always and at times even aimless. The manual training movement was forgotten in the enthusiasm over Dio Lewis New Gymnastics. Catharine Beecher's Calisthenics for women lasted long enough to develop a reaction towards other types of work. Del sarte had its short moment now it is gone. Too often we have installed the work of physical education with a shout we have supported it with cheers and we have seen it dwindle and die without even a tear. It is a pleasure to record a different temper today. School people are serious in their consideration of the matter. Principals, superintendents, and presidents are making plans for modern physical education after careful study of the needs of boys and girls and the opportunities that physical education can offer to help meet these needs.
