## Oregon Geography:

*Oregon Geography* Samuel Newton Dicken,1965      **Physical and Economic Geography of Oregon** Warren DuPré Smith,1924      **Oregon Geography** Samuel Newton Dicken,1959      *Oregon Geography Projects - 30 Cool Activities, Crafts, Experiments & More for Kids to Do to Learn About Your State!* Carole Marsh,2003-05-01 This unique book combines state specific facts and 30 fun to do hands on projects The Geography Projects Book includes creating a montage of the wildlife that lives in your state using cut out pictures recreating the path of a state river with pipe cleaners building a state tree from fresh or dried leaves or needles from as many types of trees as possible testing soil samples and more Kids will have a blast and build essential knowledge skills including research reading writing science and math Great for students in K 8 grades and for displaying in the classroom library or home      Netting the Sun Melvin R. Adams,2001 Carefully woven Netting the Sun offers a diversity of natural and human stories from a landscape seemingly empty and forlorn to passing casual travelers This surprising interpretation of south central Oregon's botany geology climate wildlife ethnography and history reveals what a truly special place the high desert is Born in the sagebrush community of Lakeview in 1941 the author moved on following high school graduation But as with many native sons and daughters from America's out of the way places the urge to return to his roots proved irresistible in middle age I endeavored to write this collection about the Oregon desert because of my childhood there Adams writes but also because it is a place of startling mystery subdued danger and beauty

### **Exploring Oregon Through Project-Based Learning**

Carole Marsh,2016-05-17 Exploring Oregon through Project Based Learning includes 50 well thought out projects designed for grades 3 5 In assigning your students projects that dig into Oregon s geography history government economy current events and famous people you will deepen their appreciation and understanding of Oregon while simultaneously improving their analytical skills and ability to recognize patterns and big picture themes Project based learning today is much different than the craft heavy classroom activities popular in the past Inquiry planning research collaboration and analysis are key components of project based learning activities today However that doesn t mean creativity individual expression and fun are out They definitely aren t Each project is designed to help students gain important knowledge and skills that are derived from standards and key concepts at the heart of academic subject areas Students are asked to analyze and solve problems to gather and interpret data to develop and evaluate solutions to support their answers with evidence to think critically in a sustained way and to use their newfound knowledge to formulate new questions worthy of exploring While some projects are more complex and take longer than others they all are set up in the same structure Each begins with the central project driving questions proceeds through research and supportive questions has the student choose a presentation option and ends with a broader view inquiry Rubrics for reflection and assessments are included too This consistent framework will make it easier for you assign projects and for your students to follow along and consistently meet expectations Encourage your students to take charge of their projects as much as possible As a teacher you can act as a facilitator and guide The projects are structured such that students can often work through the process on their own or through cooperation with their classmates *Oregon Divided* Samuel Newton Dicken,Emily F. Dicken,1982 An excellent view of the character and patterns of human habitability and occupation of Oregon examining its regional geographic realities and differences in economic opportunity

**Oregon: Its History, Geography and Resources** John Hipple Mitchell,1896 **Life & Duty** Les Joslin,2014-06-05 The fact of being a citizen of the United States of America offers the opportunity not the guarantee but the opportunity to live an extraordinary life Les Joslin writes in the introduction to Life Duty an autobiography in which he proves his thesis as he relives the first seventy years of his American adventure He shares these years in twenty chapters that comprise this three part volume Part I covers his family heritage and early years from 1943 to 1967 Part II his U S Navy career from 1967 to 1988 and Part III his life in Oregon from 1988 From Part I Chapter 5 Summer 1965 on the Toiyabe National Forest That wasn t the first time I d dealt with an armed citizen and it wouldn t be the last Some of the challenges of my fire prevention job had nothing to do with wildfire prevention but everything to do with the fact I was sometimes the only public servant around to handle a situation It had to do with that sometimes gray area between official duty and moral

obligation The previous summer on my way to Twin Lakes I detoured to check the dump I'd burned a few days before Suddenly I heard shots just as the Lone Ranger and Tonto did in the opening scene of almost every episode and what I saw as I neared the dump scared me A big beefy fortyish man standing next to a late model Cadillac sedan was firing a high powered rifle He'd heard me coming and turned as I stopped the patrol truck He didn't look particularly threatening But there were serious unknowns I didn't know him I didn't know what he might shoot at I didn't know he wouldn't shoot at me From Part II Chapter 10 November 1979 aboard USS Kitty Hawk On November 28 I got up showered and shaved put on clean khakis as usual and started toward the wardroom for breakfast The usual scent of salt and jet fuel was in the air and I had a lot on my mind I descended two ladders to the hangar bay only to be brought up short by bumping my head on a helicopter that wasn't supposed to be there A quick look around revealed seven more RH 53D Sea Stallion helicopters that their HM 16 markings told me belonged to Helicopter Mine Countermeasures Squadron Sixteen not part of the ship's air wing So that's why the swing south to Diego Garcia They'd been flown there probably in C 5As and had flown aboard last night Had I actually slept through flight quarters I forgot about breakfast climbed the ladders back to the 02 level and knocked on the door of the flag N 2's office This isn't going to work I said as he opened the door We can't fly those helicopters into a city of five million hostiles and rescue fifty hostages They don't want to hear that he replied and closed the door From Part III Chapter 15 Summer 1992 on the Deschutes National Forest As I walked toward the fire I began to think Am I doing the right thing After all I'm just a contract wilderness information specialist not part of the fire organization I hadn't been to the Deschutes National Forest's fire school I didn't have fire clothing I didn't have a fire shelter Except for a canteen I didn't have any water And I'd turned in my last red card the fire qualification card that rated me as a crew boss in 1966 when I'd left the Toiyabe National Forest to go on active duty in the Navy That was twenty six years ago Should I be doing this Sure I answered my own question I'd started out in the old Forest Service where everybody did everything I'd done this many times before in the days before fire shirts and Nomex britches and fire shelters I'd had five fire seasons on the Toiyabe been on a couple big fires I knew this business I knew how to keep out of trouble About the time I resolved that little issue I was at the fire      **The Commonwealth Review of the University of Oregon** ,1924
