Kull, J. Arditti, 2013-03-14 Note Not long after publication of *Orchid Biology Reviews and Perspectives* OB volume VII my co editor Dr Alec M Pridgeon informed me that the pressure of other duties especially the editing of *Genera Orchidacearum* GO will make it impossible for him to continue as co editor and eventually editor of the series Alec is an excellent orchid scientist and editor I was sorry to that he had to leave OB but glad that GO will be in his able hands The first volume of GO attests to his considerable abilities and I wish him much success in the future Editors of orchid publications are not the most common of species to use a botanical analogy and finding a replacement for Alec was not easy However I was fortunate that Dr Tiiu Kull agreed to become my co editor and eventually take over the series As is obvious from the Contributors section Dr Kull has extensive experience as both writer and editor My interactions with her while editing this volume have convinced me she is an excellent choice Scientifically she brings to OB an appreciation and understanding of northern terrestrial orchids a group which has not received as much attention as it deserves Another addition to OB is Dr Tim Wing Yam who agreed to become an associate editor Tim who holds a position at the Singapore Botanic Gardens will provide expertise on seed germination hybridization tissue culture species and conservation **Charles Darwin's Works: The various contrivances by which orchids are fertilised by insects** Charles Darwin, 1877 Conservation Methods for Terrestrial Orchids Nigel Swarts, Kingsley Dixon, 2017-07-01 Orchids are unmatched in their floristic diversity wide range of growth habitats and most importantly their unique and highly adapted biology and ecology With terrestrial orchids now among the world's most threatened plants the need for conservation is paramount *Conservation Methods for Terrestrial Orchids* equips orchid biologists botanists conservationists students and hobbyists with the necessary methodologies to facilitate the conservation of this endangered group of orchids This first ever comprehensive volume on terrestrial orchids includes background information techniques procedures and relevant case studies on topics such as monitoring approaches used for mycorrhizal isolation and culture seed sowing techniques soil baiting symbiotic culture of terrestrial species translocation of propagated plants pollination genetic approaches for orchid biology and conservation innovations in alginate encapsulation of seed and mycorrhizal fungus and more The focus of this volume is on terrestrial orchids as these species face the greatest conservation threats however the techniques described in this book can also be applied equally to epiphytic tree orchids Pink Orchids Lined Journal Quipoppe Publications, 2018-02-11 *Pink Orchids Journal A* 6x9 Size Journaling Notebook Lined pages with medium ruled line spacing for easy writing 130 writable pages Lined pages without illustrations offering you maximum space to write Why Write
