Davis, 1996-11-14 This new work offers a substantive political theory approach to organizational theory It differs significantly from most organizational perspectives in that it applies political theory to four prevalent organizational models found in administration today Most such models fall within the province of government or corporate management and fail to deal with the democratic and public dimensions of organization In this study Davis examines various organizational theories prospects to generate authentic public organization He also suggests alternative considerations by which to facilitate more genuine public organization An important contribution to the literature in organizational theory and public administration this work will be of interest to scholars and students in these and related fields
