## **New Woman Revised:**

*The "new Woman" Revised* Ellen Wiley Todd, 1993-01-01 In the years between the world wars Manhattan's Fourteenth Street Union Square district became a center for commercial cultural and political activities and hence a sensitive barometer of the dramatic social changes of the period. It was here that four urban realist painters Kenneth Hayes Miller, Reginald Marsh, Raphael Soyer, and Isabel Bishop placed their images of modern new women. Bargain stores, cheap movie theaters, pinball arcades, and radical political organizations were the backdrop for the women shoppers, office and store workers, and consumers of mass culture portrayed by these artists. Ellen Wiley Todd deftly interprets the painters' complex images as they were refracted through the gender ideology of the period. This is a work of skillful interdisciplinary scholarship combining recent insights from feminist art history, gender studies, and social and cultural theory. Drawing on a range of visual and verbal representations as well as biographical and critical texts, Todd balances the historical context surrounding the painters with nuanced analyses of how each artist's image of womanhood contributed to the continual redefining of the new woman's relationships to men, family, work, feminism, and sexuality. **The "New Woman" Revised** Ellen Wiley Todd, 2021

*American Women Modernists* Robert Henri, Marian Wardle, Sarah Burns, Brigham Young University. Museum of Art, 2005 The seven essays included in this volume move beyond the famed Ashcan School to recover the lesser-known work of Robert Henri's women students. The contributors, who include well-known scholars of art history, American studies, and cultural studies, demonstrate how these women participated in the modernizing of women's roles during this era. **Illustrated Sheet Music in the U.S., 1830-1930** Theresa Leininger-Miller, Kenneth Hartvigsen, 2025-01-23 Illustrated sheet music was one of the most democratic forms of visual imagery in the U.S., owned by millions of Americans wooed by compelling lithographic covers who displayed and performed compositions on home pianos. Advancements in printing technologies in the 19th century, together with an emergent commercial system that facilitated the publication and broad distribution of popular music, led to a surge of elaborately illustrated sheet music. This book features essays by cutting-edge scholars who analyze the remarkable images that persuaded U.S. citizens to purchase mass-produced compositions for both personal and social pleasure. With some songs selling millions of copies as printed musical scores, music publishers commissioned artists to draw every conceivable subject as promotional illustrations, including genre scenes, portraits, political and historical events, sentimental allegories, flowers, landscapes, commercial buildings, and maritime views. As ubiquitous and democratic material culture, this imagery affected ordinary people in far greater ways than unique objects like paintings and sculpture possibly could. The pictures, many in saturated color with bold graphics, still intrigue, amaze, and amuse viewers today with their originality, skill, and content. Rooted in visual analysis, topics in this collection include perennially significant themes: race, ethnicity, gender, sexuality, class, politics, war, patriotism, propaganda, religion, transportation, regional centers of production, technology, Reconstruction, romance, and comedy, as well as bodies of work by specific illustrators and lithographic firms. In
