New Woman Strategies:

Writing Women of the Fin de Siècle Adrienne E. Gavin, Carolyn Oulton, 2016-02-16 Concentrating on a period of significant social and political change and exploring both canonical and newly rediscovered texts this book critically assesses the changing culture of the late Victorian period as represented by a range of women writers through a range of essays by leading academics in the field and cutting edge work by newer scholars

Middlebrow Feminism in Classic British Detective Fiction M. Schaub, 2013-02-21 This is a feminist study of a recurring character type in classic British detective fiction by women a woman who behaves like a Victorian gentleman Exploring this character type leads to a new evaluation of the politics of classic detective fiction and the middlebrow novel as a whole

The Oxford Handbook of American Drama Jeffrey H. Richards, Heather S. Nathans, 2014-02 This volume explores the history of American drama from the eighteenth to the twentieth century It describes origins of early republican drama and its evolution during the pre war and post war periods It traces the emergence of different types of American drama including protest plays reform drama political drama experimental drama urban plays feminist drama and realist plays This volume also analyzes the works of some of the most notable American playwrights including Eugene O'Neill Tennessee Williams and Arthur Miller and those written by women dramatists

Adolescent Girlhood and Literary Culture at the Fin de Siècle Beth Rodgers, 2016-10-06 This book examines the construction of adolescent girlhood across a range of genres in the closing decades of the nineteenth century It argues that there was a preoccupation with defining characterising and naming adolescent girlhood at the fin de siècle These daughters of today juvenile spinsters and modern girls as the press variously termed them occupying a borderland between childhood and womanhood were seen to be inextricably connected to late nineteenth century modernity they were the products of changes taking place in education and employment and of the challenge to traditional conceptions of femininity presented by the Woman Question The author argues that the shifting nature of the modern adolescent girl made her a malleable cultural figure and a meeting point for many of the prevalent debates associated with fin de siècle society By juxtaposing diverse material from children's books and girls magazines to New Woman novels and psychological studies the author contextualises adolescent girlhood as a distinct but complex cultural category at the end of the nineteenth century

The Reading Figure in Irish Art in the Long Nineteenth Century Tricia Cusack, 2022-02-01 The reading figure has been a recurrent theme in Western art but especially from the nineteenth century This book examines Irish portraits during the long nineteenth century in which people are shown reading or holding a book It explores different values ascribed to reading and contemporary constructions of the reader The selected pictures are by artists born trained or practising in Ireland Irish art is therefore used broadly to include work framed in some way by experience of Ireland and its history culture and politics This was a time of large social and cultural shifts for Ireland and a period when books and other reading including Irish novels were often published in London Many of the artists and sitters discussed were Anglo Irish Protestants

Both Imperial and nationalist ideologues tended to devalue reading especially fiction as an unmanly occupation. Nonetheless, some men are depicted reading and failing to embody a manly attitude. The spread of the novel and the introduction of silent reading allowed women of the middle and upper classes, often Anglo-Irish, to engage with a range of imaginative reading materials secure from patriarchal surveillance. Visual images of women as serious readers drew on and contributed to the emergence of the New Woman in Ireland.

Victorian audience but which still remains largely unheard of today Grand's novel quite polemical in its time addressed ideas of female sexuality and education among other topics Grand herself meant the work to be predominantly didactic always stressing that it is most often what a woman does not know that can most hurt her Throughout the work Grand makes constant references to items of her period some literary some political some even scientific It is these allusions that give the novel an additional richness and depth needless to say readers unfamiliar with the many references may overlook any wit or wisdom Grand has intended to impart with their use Until now no critical edition of *The Heavenly Twins* has existed The annotations within are not only meant to serve as a reading companion to Grand's work but it may be hoped will lend to a further understanding of the world from which the author is writing from Cultural Strategies of Agenda Denial Roger W.
