26 SOUPS

FRUIT BAT SOUP

(This soup is offered on the off-chance that a reader may find himself in Micronesia, specifically the Caroline Islands, where this is a natural, native delicacy.)

2 fruit bats, well washed but neither skinned nor eviscerated
Water

1 tablespoon finely sliced fresh ginger

1 large onion, quartered

Sea salt to taste

Chopped scallions

Soy sauce and/or coconut cream

1. Place the bats in a large kettle and add water to cover, the ginger, onion and salt. Bring to a boil and boil 40 minutes. Strain broth into a second kettle.

2. Take bats, skin them and discard skin. Remove meat from the bones and return meat, including any of the viscera fished, to the broth. Heat.

3. Serve liberally sprinkled with scallions and further seasoned with soy sauce and/or coconut cream.

Yield: Four servings.

GARLIC SOUP

2 large heads fresh garlic

Boiling water

2 quarts cold water

2 tablespoons sea salt

Freshly ground black pepper
to taste

2 whole cloves

1/2 teaspoon sage

1/2 teaspoon thyme

4 sprigs parsley

2 tablespoons oil

1 egg yolk

1. Separate the heads of garlic into cloves. Pour boiling water to cover over all. Drain. Slip the skins off the garlic cloves and place in a kettle with the water, salt, pepper, cloves, sage, thyme, parsley and oil.

2. Bring to a boil and simmer 30 minutes.

3. Beat the egg yolks until thick and gradually beat in the butter. Strain the soup and add very slowly, while beating vigorously, to the egg yolk mixture. Return but do not boil.

Hunter,1969-10-15 From Simon Schuster The Natural Foods Cookbook is Beatrice Trum Hunter s first book of Natural Foods recipes that shows you a new way to more flavorsome easy to make meals The Natural Foods Cookbook offers a collection of recipes that provide more radiant healthy food for greater day to day energy for the whole family *Food on the Page* Megan J. Elias,2017-04-20 What is American food From barbecue to Jell O molds to burrito bowls its history spans a vast patchwork of traditions crazes and quirks A close look at these foods and the recipes behind them unearths a vivid map of American foodways how Americans thought about food how they described it and what foods were in and out of style at different times In Food on the Page the first comprehensive history of American cookbooks Megan J Elias chronicles cookbook publishing from the early 1800s to the present day Following food writing through trends such as the Southern nostalgia that emerged in the late nineteenth century the Francophilia of the 1940s countercultural cooking in the 1970s and today s cult of locally sourced ingredients she reveals that what we read about food influences us just as much as what we taste Examining a wealth of fascinating archival material and rediscovering several all American culinary delicacies and oddities in the process Elias explores the role words play in the creation of taste on both a personal and a national level From Fannie Farmer to The Joy of Cooking to food blogs she argues American cookbook writers have commented on national cuisine while tempting their readers to the table By taking cookbooks seriously as a genre and by tracing their genealogy Food on the Page explains where contemporary assumptions about American food came from and where they might lead

The Complete Book of Natural Foods Fred Rohé,1983 **Inventing Baby Food** Amy Bentley,2014-09-19 Food consumption is a significant and complex social activity and what a society chooses to feed its children reveals much about its tastes and ideas regarding health In this groundbreaking historical work Amy Bentley explores how the invention of commercial baby food shaped American notions of infancy and influenced the evolution of parental and pediatric care Until the late nineteenth century infants were almost exclusively fed breast milk But over the course of a few short decades Americans began feeding their babies formula and solid foods frequently as early as a few weeks after birth By the 1950s

commercial baby food had become emblematic of all things modern in postwar America Little jars of baby food were thought to resolve a multitude of problems in the domestic sphere they reduced parental anxieties about nutrition and health they made caretakers feel empowered and they offered women entering the workforce an irresistible convenience But these baby food products laden with sugar salt and starch also became a gateway to the industrialized diet that blossomed during this period Today baby food continues to be shaped by medical commercial and parenting trends Baby food producers now contend with health and nutrition problems as well as the rise of alternative food movements All of this matters because as the author suggests it's during infancy that American palates become acclimated to tastes and textures including those of highly processed minimally nutritious and calorie dense industrial food products
